

Daily Scrum Meeting Minutes

Attendees: Luis Gonzalez, Jonathan Hernandez, David Peno, Kendrick Crespo, Anjani Mogallur

Start time: 9:20pm

End time: 9:30 pm

Luis Gonzalez:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Implement the rest of the API calls, and test the rest of the API endpoints

What is planned to be done until the next scrum meeting?

Implementing the Deep Learning models that creates the graphs based on all the text data of the document

What are the hurdles?

No hurdles at the moment

Anjani Mogallur:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Outlined the expected structure for how chunked and cleaned text will be passed into the summarization module. Also drafted a basic input validation function to check for empty text.

What is planned to be done until the next scrum meeting?

Work on the validation step and prepare a small batch of test documents with intended formatting issues to see if the system can catch and clean them.

What are the hurdles?

Edge cases like scanned documents with large tables still need special handling strategies.

David Peno:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Made progress on implementing the graph tools so that they could help the natural language processing tasks of a note summarizer

What is planned to be done until the next scrum meeting?

Continue working on the implementation of the graph tools to create concept graphs to connect related words in a document

What are the hurdles?

Finding a way so that the context of a document is known to find which words are important in the note and use that to create the graphs

Kendrick Crespo:**How many hours did I work since the last meeting?**

3 hours

What was done since the last scrum meeting?

Researched ways to not limit the access to certain environments, slowing down testing.

What is planned to be done until the next scrum meeting?

Figure out which date format the frontend components expect.

What are the hurdles?

No hurdles for the moment.

Jonathan Hernandez:**How many hours did I work since the last meeting?**

3 hours

What was done since the last scrum meeting?

Continued refining the UI—implemented improved tooltip formatting with dynamic content and adjusted interaction zones to make node clicks more intuitive.

What is planned to be done until the next scrum meeting?

Begin testing the graph with sample data generated from the summarization module and evaluate how well the layout adapts to different input sizes.

What are the hurdles?

Managing tooltip positioning when overlapping nodes are present and ensuring that user interactions remain responsive under varying data loads.
