

Daily Scrum Meeting Minutes

Attendees: Luis Gonzalez, Jonathan Hernandez, David Peno, Kendrick Crespo, Anjani Mogallur

Start time: 9:50 pm

End time: 10:00 pm

Luis Gonzalez:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Complete a comparison summary table and add usage recommendations tailored to our AI learning app's document needs.

What is planned to be done until the next scrum meeting?

Add detailed usage recommendations tailored to the types of documents used in our AI learning app (e.g., slides, books, research papers)

Run tests with a variety of document formats to validate tool performance and generate usage insights

What are the hurdles?

No hurdles

Anjani Mogallur:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Outlined the expected structure for how chunked and cleaned text will be passed into the summarization module. Also drafted a basic input validation function to check for empty text.

What is planned to be done until the next scrum meeting?

Work on the validation step and prepare a small batch of test documents with intended formatting issues to see if the system can catch and clean them.

What are the hurdles?

Edge cases like scanned documents with large tables still need special handling strategies.

David Peno:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Made progress on determining the best graph tool for creating concept graphs and implementing it for the note summarizer

What is planned to be done until the next scrum meeting?

Keep using the graph tools to create concept graphs with important words in the document as nodes and their relationships as edges

What are the hurdles?

Determining how the graph could be displayed to the user

Kendrick Crespo:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Researched inconsistent availability of third-party services

What is planned to be done until the next scrum meeting?

Find ways to support of slow response times from third-party vendors.

What are the hurdles?

Unpredictable latency spikes, which affect the consistency of our application's user experience.

Jonathan Hernandez:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Finalized layout tweaks to improve how related nodes cluster together visually. Also cleaned up label positioning and adjusted tooltip timing to improve usability.

What is planned to be done until the next scrum meeting?

Begin connecting the graph to early-stage summarization outputs and test how well it adapts to structured content from real files.

What are the hurdles?

Maintaining smooth transitions as new data is introduced and making sure UI remains responsive during live updates.
