

Daily Scrum Meeting Minutes

Attendees: Luis Gonzalez, Jonathan Hernandez, David Peno, Kendrick Crespo, Anjani Mogallur

Start time: 9:30 pm

End time: 9:40 pm

Luis Gonzalez:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Write up a short report with usage recommendations tailored to our AI learning app's needs.
Completed documentation

What is planned to be done until the next scrum meeting?

Prepare another API endpoint to fetch more data for the models. Build RAG system

What are the hurdles?

No hurdles right now

Anjani Mogallur:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Started prototyping the feedback dashboard layout, focusing on displaying average ratings per summary and total feedback submissions over time. Created placeholder charts using sample data to test layout spacing and styling for clarity.

What is planned to be done until the next scrum meeting?

Connect the dashboard to real feedback entries stored in the backend and begin testing live data rendering. Also refine the visual elements to ensure that trends and insights are easy to interpret.

What are the hurdles?

Handling missing or incomplete feedback data without breaking the charts. Also making sure the dashboard loads efficiently as data volume grows.

David Peno:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Worked on creating an app route that uses Graphviz to be able to create a PNG from the generated concept graph

What is planned to be done until the next scrum meeting?

Keep working on being able to create an image of the concept graph that could be downloaded

What are the hurdles?

Attempting to get the graph image to be exactly the same as the concept graph

Kendrick Crespo:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

To choose the most promising tool that can trace component state changes and lifecycle events.

What is planned to be done until the next scrum meeting?

To figure out the steep learning curves for advanced features in debugging tools.

What are the hurdles?

Non right now.

Jonathan Hernandez:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Integrated the graph component into the main UI flow and began testing it alongside other system features. Also made final layout refinements to ensure consistent performance across screen sizes and data loads.

What is planned to be done until the next scrum meeting?

Focus on polishing the UI for presentation—refine animations, adjust color themes, and ensure visual consistency. Begin collecting feedback from team members to address any usability concerns.

What are the hurdles?

Coordinating styling with other parts of the interface and maintaining performance as the full system comes together.
