

Daily Scrum Meeting Minutes

Attendees: Luis Gonzalez, Jonathan Hernandez, David Peno, Kendrick Crespo, Anjani Mogallur

Start time: 9:20 pm

End time: 9:30pm

Luis Gonzalez:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Prepare another API endpoint to fetch more data for the models. Build RAG system

What is planned to be done until the next scrum meeting?

Still connecting all the APIs and create new endpoints for the new model.

What are the hurdles?

No hurdles

Anjani Mogallur:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Connected the feedback dashboard to real backend data and successfully rendered live charts showing average summary ratings and total feedback submissions. Also added basic error handling for missing or malformed entries to ensure the dashboard remains stable.

What is planned to be done until the next scrum meeting?

Improve the design and responsiveness of the dashboard UI for better readability on different screen sizes. Start working on filtering options, such as viewing feedback by document type or date range.

What are the hurdles?

Ensuring chart updates reflect new feedback in real time without needing a full refresh. Also balancing visual clarity with showing enough detail to make the data useful.

David Peno:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Worked on the functionality of creating a PNG from the concept graph and allowing the user to be able to download it

What is planned to be done until the next scrum meeting?

Keep working on creating an image from the concept graph

What are the hurdles?

No hurdles

Kendrick Crespo:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Applied the selected debugging tool to a real component to evaluate its effectiveness.

What is planned to be done until the next scrum meeting?

Analyze the debugging output from the selected tools to identify any negatives

What are the hurdles?

Non right now.

Jonathan Hernandez:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Integrated the graph component into the main UI flow and began testing it alongside other system features. Also made final layout refinements to ensure consistent performance across screen sizes and data loads.

What is planned to be done until the next scrum meeting?

Focus on polishing the UI for presentation—refine animations, adjust color themes, and ensure visual consistency. Begin collecting feedback from team members to address any usability concerns.

What are the hurdles?

Coordinating styling with other parts of the interface and maintaining performance as the full system comes together.
