Attendees: Luis Gonzalez, Jonathan Hernandez, David Peno, Kendrick Crespo, Anjani Mogallur

Start time: 9:50 pm

End time: 10:00 pm

Luis Gonzalez:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Still connecting all the APIs and create new endpoints for the new model.

What is planned to be done until the next scrum meeting?

Create and connect new API endpoints and perform testing

What are the hurdles?

Minor bugs

Anjani Mogallur:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Improved the visual layout and responsiveness of the feedback dashboard, making sure charts scale properly across different screen sizes.

What is planned to be done until the next scrum meeting?

Add a toggle for switching between summary feedback and concept graph feedback views.

What are the hurdles?

Making sure the filters don't conflict with each other and that toggling between views doesn't reset existing chart states or selections.

David Peno:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Worked on improving the generated concept graphs so that they only include frequently occurring concepts and attempted to create an image from the graph

What is planned to be done until the next scrum meeting?

Keep improving the concept graphs and attempting to form a downloadable PNG from the graph

What are the hurdles?

Attempting to resolve errors in creating the PNG from the graph

Kendrick Crespo:**How many hours did I work since the last meeting?**

3 hours

What was done since the last scrum meeting?

Analyzed the debugging output from the selected tools to identify any negatives

What is planned to be done until the next scrum meeting?

Record strengths, weaknesses and quirks of the debugging tool.

What are the hurdles?

Non right now.

Jonathan Hernandez:**How many hours did I work since the last meeting?**

3 hours

What was done since the last scrum meeting?

Improved UI responsiveness and started addressing minor layout inconsistencies found during testing. Also coordinated with the team to align styling across pages for a cleaner user experience.

What is planned to be done until the next scrum meeting?

Finalize UI tweaks and begin reviewing user interaction flows to ensure a seamless experience. Prepare to connect final back-end endpoints as testing progresses.

What are the hurdles?

Ensuring all UI components remain stable under real-time testing and data load.
