

Daily Scrum Meeting Minutes

Attendees: Luis Gonzalez, Jonathan Hernandez, David Peno, Kendrick Crespo, Anjani Mogallur

Start time: 9:50 pm

End time: 10:00 pm

Luis Gonzalez:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Still connecting all the APIs and create new endpoints for the new model.

What is planned to be done until the next scrum meeting?

Create and connect new API endpoints and perform testing

What are the hurdles?

Minor bugs

Anjani Mogallur:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Implemented the toggle feature to switch between summary and concept graph feedback views on the dashboard.

What is planned to be done until the next scrum meeting?

Complete the first version of the feedback insights report using live data.

What are the hurdles?

Ensuring the insights report is meaningful without overloading it with raw data.

David Peno:

How many hours did I work since the last meeting?

3 hours

What was done since the last scrum meeting?

Improved the concept graphs so that the user could zoom in and out when there are lots of nodes and attempted to export an image from the concept graph

What is planned to be done until the next scrum meeting?

Keep refining the design and functionality of the concept graphs and work on fixing any errors in creating a PNG from the graph

What are the hurdles?

Fixing errors in forming a downloadable PNG of the concept graph

Kendrick Crespo:**How many hours did I work since the last meeting?**

3 hours

What was done since the last scrum meeting?

Recording strengths, weaknesses and quirks of the debugging tool.

What is planned to be done until the next scrum meeting?

Continue to record strengths, weaknesses and quirks of the debugging tool.

What are the hurdles?

Non right now.

Jonathan Hernandez:**How many hours did I work since the last meeting?**

3 hours

What was done since the last scrum meeting?

Improved UI responsiveness and started addressing minor layout inconsistencies found during testing. Also coordinated with the team to align styling across pages for a cleaner user experience.

What is planned to be done until the next scrum meeting?

Finalize UI tweaks and begin reviewing user interaction flows to ensure a seamless experience. Prepare to connect final back-end endpoints as testing progresses.

What are the hurdles?

Ensuring all UI components remain stable under real-time testing and data load.
