

Sprint Review Meeting Minutes

Attendees: George Spanioli, Issik Drew, Joshua Lopez, Ivan Marquez Jr, Justin Robertson

Start time: 06:00 PM

End time: 7:00 PM

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners: All.

User Story #8 – User Feedback Submission

As a user, I want to leave feedback on passages or vocabulary content so that the app can improve based on user suggestions. (Frontend + Backend)

User Story #9 – Dark Mode Interface

As a user, I want the option to switch to a dark mode theme so I can reduce eye strain during nighttime usage. (Frontend)

User Story #10 – Admin Dashboard Analytics

As an admin, I want to see statistics on user engagement, such as how many users are completing flashcard reviews or reading passages, so I can track the app's effectiveness. (Backend + Database + Frontend)

User Story #11 – Vocabulary Word Reporting Tool

As a user, I want to report incorrect definitions or pronunciations so that errors in vocabulary content can be quickly fixed. (Frontend + Backend + QA)

User Story #12 – Gamification Elements (XP/Badges)

As a user, I want to earn badges or points for completing vocabulary sessions so I feel more motivated to continue learning. (Frontend + Backend + Database)

User Story #13 – Bookmark Favorite Words

As a user, I want to bookmark difficult or favorite words so I can review them again later in a personal list. (Frontend + Database)

User Story #14 – Speech Recognition Practice

As a user, I want to practice saying vocabulary words and get feedback on pronunciation so I can improve my speaking skills. (Frontend + Backend + ML/API Integration)

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Spring Planning meeting.
