

Sprint Review Meeting Minutes

Attendees: George Spanioli, Issik Drew, Joshua Lopez, Ivan Marquez Jr, Justin Robertson

Start time: 3:00 PM

End time: 4:00 PM

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners: All.

User Story #1	User Authentication System	As a user, I want to sign up and log in securely so my progress is saved and private. <i>(Frontend + Backend)</i>
User Story #2	Reading Interface	As a user, I want to read text passages with vocabulary words highlighted so I can focus on learning those words. <i>(Frontend)</i>
User Story #3	Vocabulary Management	As an admin, I want to upload reading passages and related vocabulary so that learners always have fresh content. <i>(Backend + Database)</i>
User Story #4	Word Lookup Feature	As a user, I want to click a highlighted word to see its definition and hear it pronounced. <i>(Frontend + Backend)</i>
User Story #5	Flashcard Review Game	As a user, I want to practice words using flashcards that show the definition and optionally play the pronunciation. <i>(Frontend)</i>
User Story #6	Progress Tracking System	As a user, I want to see how many words I've practiced and mastered so I can track my learning. <i>(Frontend + Backend + Database)</i>
User Story #7	Mobile-Friendly Design	As a user, I want the app to work well on phones and tablets so I can use it anywhere. <i>(Frontend + QA)</i>

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Spring Planning meeting.
