

Sprint Retrospective Meeting Minutes

Attendees: Christian Stewart, Jonathan Hori, Cristian Pena, Randy Arbolaez, Dahiver Guerra

Start time: 12:00pm

End time: 1:00pm

What went wrong?

- Some of the stories were deemed harder to implement and took some more time than expected.

Did we do a good job estimating our team's work capacity?

- We did a good job estimating the work capacity even when some stories were a little more difficult.

Did we do a good job estimating the time required for each user story/task?

- Figuring out user accounts, reporting option as well as the mobile version of this required a lot more time so time estimation needed some work.

Did each team member work as scheduled?

- All team members worked as scheduled and communicated efficiently.

What went right?

- Frontend and backend work went accordingly
- Backend server integration worked perfectly thanks to the members of the team.
- The webapp looks good and functions as its supposed to, just needs new features.

How to address the issues in the next sprint?

- Expand more on the features needed for the project.
- A little more research to get a better understanding of the features.

How to improve the process?

- Share screen during standup so we have a better idea of what we're doing.
- Documentation, and better communication.

How to improve the product?

- Update use case diagrams to see the flow of the project.
- Add features that currently are not used in today's lost and found apps.
