Start time: 7:30 PM

End time: 8:30 PM

After discussion, the velocity of the team was estimated to be 15.

The following user stories were created/discussed/refined/prioritized.

- All user stories are under progress

The user stories below are under progress.

- User Story: 4 As a report writer, I want to structure the report based on our research. This is so that we begin with the important sections in the next sprints.
- User Story: 3 As a technical team member, I want to program a Digispark so that an awareness message pops up. This is so that we show what a malicious usb does.
- User Story: 3 As a user trying the simulated bait attack, I want to learn how usb attacks happens and how it affects other people by inserting a usb and seeing the message
- User Story: 3 As an audience target member, I want to check an awareness poster, so that I know and understand the risks that happen when plugging a malicious usb.
- User Story: 3 As an analyst, I want to make a couple of HTML or text formats to the team to see which format is better for educating users.
