What was done since the last scrum meeting?

We encountered some issues with our Chrome Extension and are considering switching our application to a website. We discussed the pros and cons of this move.

What is planned to be done until the next scrum meeting?

We will research the benefits of switching from a Chrome extension to a website and present our findings. We will also ensure to focus on how this change will effect our user stories.

What are the hurdles?

No one on the team has built a Chrome extension. Although learning something new is exciting, it is also difficult to learn something new while having to produce a viable product.

What was done since the last scrum meeting?

Shifted from viewing user stories as a base to using them to guide product structure.

What is planned to be done until the next scrum meeting?

Research how story layout can shape design and flow.

What are the hurdles?

Finding the right structure to match both user needs and build scope.
