

Sprint Planning Meeting Minutes:

Attendees: Semen Kolesnykov, Blake Schneringer, Archer Amon, Enrique Dominguez, Archer Amon

Start time: 21:30

End time: 22:30

After discussing the tasks and objectives for the upcoming sprint, the team estimated their velocity to be 5 user story points per sprint.

The product owner prioritized the following user stories to be completed in this sprint:

- User Story #1: As a user, I want to input my job description so the system can tailor a resume to it.
- User Story #2: As a user, I want to generate a resume using AI.
- User Story #3: As a user, I want to preview and download the generated resume.

The team members indicated their willingness to work on the following user stories.
