

Sprint Planning Meeting Minutes:

Attendees: <Celine Perez, Julio Jeronimo, Avid Andrade Trejo, Giovanni Derisca >

Start time: <10:10 PM>

End time: <10:40 PM>

After discussion, the velocity of the team was estimated to be <30 hours per sprint>.

The product owner chose the following user stories to be done during the next sprint. They are ordered based on their priority.

- User Story #8 – Session Analytics Dashboard
- User Story #9 – Smart Session Tagging
- User Story #11 - Session Reminder Notifications
- User Story #10 - Quiz review mode
- User Story #12 - Personalized Study History

The team members indicated their willingness to work on the following user stories.

- Julio Jeronimo:
 - User Story 9 – Smart Session Tagging
 - As a student, I want sessions to be automatically tagged with relevant topics so that I can easily search and filter them later.
 - Acceptance Criteria:
 - Tags are generated based on session content.
 - Tags appear at the top of each session summary.
 - Users can filter sessions by tag.
- Avid Andrade Trejo:
 - User Story 10 - Quiz review mode
 - As a student, I want to review past quizzes and see which questions I got right or wrong so that I can learn from my mistakes.
 - Acceptance Criteria:
 - A “Review Past Quizzes” section is available.
 - Each quiz shows selected answers, correct answers, and explanations.
 - Option to retake quiz.
 - User Story 122 - Personalized Study History
 - Acceptance Criteria:
 - Backend API endpoint returns a chronological list of user activity (sessions, quizzes, bookmarks).
 - Each entry includes timestamps, session titles, quiz scores, and tags.
 - Supports pagination and filtering by date or topic.
 - Data is securely scoped to the authenticated user.
- Celine Perez:
 - User Story #11 – Session Reminder Notifications

- As a student, I want to receive reminders to start or continue study sessions so that I stay consistent with my learning.
- Acceptance Criteria:
 - Users can set daily or weekly reminders.
 - Notifications are sent via email or in-app.
 - Option to snooze or disable reminders.

- Giovanni Derisca

User Story 8 - Session Analytics Dashboard

- As a student, I want to view analytics about my study sessions (e.g., time spent, topics covered, quiz scores) so that I can track my learning progress.
- Acceptance Criteria:
 - A dashboard view is accessible from the main menu.
 - Displays total study time, number of sessions, average quiz score.
 - Visual charts (bar or pie) show topic distribution.
