

Sprint 1 Retrospective Meeting Minutes

Members: Alejandro Morales, Gabriel Rodriguez, Haadiya Khan, Elena Sotolongo, Argelio Rodriguez

Start time: 8:30 pm

End time: 9:00 pm

What went wrong?

- Did we do a good job estimating our team's velocity?
 - We overestimated our team's capacity.
- Did we accurately estimate the points (time required) for each user story?
 - Some user stories required more time than initially estimated, especially those involving API research and integration.
- Did each team member work as scheduled?
 - Yes.

What went right?

- Everyone in the team maintained communication and worked well together.

How to address the issues in the next sprint?

- How to improve the process?
 - Have more flexible scheduling and regular check-ins to better manage time and ensure user stories are completed as planned.
- How to improve the product?
 - Adjust the development order to focus on high-impact features earlier in the process.

Sprint 2 Retrospective Meeting Minutes

Members: Alejandro Morales, Gabriel Rodriguez, Haadiya Khan, Elena Sotolongo, Argelio Rodriguez

Start time: 8:30 pm

End time: 9:00 pm

What went wrong?

- Did we do a good job estimating our team's velocity?
 - We overestimated our team's capacity.
- Did we accurately estimate the points (time required) for each user story?
 - Some user stories required more time than initially estimated, especially those involving integration of features, some user stories were split.
- Did each team member work as scheduled?
 - Yes.

What went right?

- Everyone in the team maintained communication and worked well together.

How to address the issues in the next sprint?

- How to improve the process?
 - Have more flexible scheduling and regular check-ins to better manage time and ensure user stories are completed as planned.
- How to improve the product?
 - Adjust the development order to focus on high-impact features earlier in the process.

Sprint 3 Retrospective Meeting Minutes

Members: Alejandro Morales, Gabriel Rodriguez, Haadiya Khan, Elena Sotolongo, Argelio Rodriguez

Start time: 8:30 pm

End time: 9:00 pm

What went wrong?

- Did we do a good job estimating our team's velocity?
 - We overestimated our team's capacity.
- Did we accurately estimate the points (time required) for each user story?
 - Some user stories required more time than initially estimated, especially those involving integration of features, some user stories were split.
- Did each team member work as scheduled?
 - Yes.

What went right?

- Everyone in the team maintained communication and worked well together.

How to address the issues in the next sprint?

- How to improve the process?
 - Have more flexible scheduling and regular check-ins to better manage time and ensure user stories are completed as planned.
- How to improve the product?
 - Adjust the development order to focus on high-impact features earlier in the process.

Sprint 4 Retrospective Meeting Minutes

Members: Alejandro Morales, Gabriel Rodriguez, Haadiya Khan, Elena Sotolongo, Argelio Rodriguez

Start time: 8:30 pm

End time: 9:00 pm

What went wrong?

- Did we do a good job estimating our team's velocity?
 - Yes.
- Did we accurately estimate the points (time required) for each user story?
 - Some user stories required more time than initially estimated, especially those involving integration of features.
- Did each team member work as scheduled?
 - Yes.

What went right?

- Everyone in the team maintained communication and worked well together.

How to address the issues in the next sprint?

- How to improve the process?
 - Have more flexible scheduling and regular check-ins to better manage time and ensure user stories are completed as planned.
- How to improve the product?
 - Adjust the development order to focus on high-impact features earlier in the process.

Sprint 5 Retrospective Meeting Minutes

Members: Alejandro Morales, Gabriel Rodriguez, Haadiya Khan, Elena Sotolongo, Argelio Rodriguez

Start time: 8:30 pm

End time: 9:00 pm

What went wrong?

- Did we do a good job estimating our team's velocity?
 - Yes.
- Did we accurately estimate the points (time required) for each user story?
 - Some user stories required more time than initially estimated, especially those involving multiple APIs.
- Did each team member work as scheduled?
 - Yes.

What went right?

- Everyone in the team maintained communication and worked well together.

How to address the issues in the next sprint?

- How to improve the process?
 - Have more flexible scheduling and regular check-ins to better manage time and ensure user stories are completed as planned.
- How to improve the product?
 - Adjust the development order to focus on high-impact features earlier in the process.

Sprint 6 Retrospective Meeting Minutes

Members: Alejandro Morales, Gabriel Rodriguez, Haadiya Khan, Elena Sotolongo, Argelio Rodriguez

Start time: 8:30 pm

End time: 9:00 pm

What went wrong?

- Did we do a good job estimating our team's velocity?
 - Yes.
- Did we accurately estimate the points (time required) for each user story?
 - Some user stories required more time than initially estimated, especially those involving multiple APIs.
- Did each team member work as scheduled?
 - Yes.

What went right?

- Everyone in the team maintained communication and worked well together.

How to address the issues in the next sprint?

- How to improve the process?
 - Plan for more frequent merges to avoid last-minute issues.
 - Keep schedules flexible, especially for tasks that may be more complex than expected.
- How to improve the product?
 - Focus on important features earlier in the project to leave room for fine-tuning.

Sprint 7 Retrospective Meeting Minutes

Members: Alejandro Morales, Gabriel Rodriguez, Haadiya Khan, Elena Sotolongo, Argelio Rodriguez

Start time: 8:30 pm

End time: 9:00 pm

What went wrong?

- Did we do a good job estimating our team's velocity?
 - Yes.
- Did we accurately estimate the points (time required) for each user story?
 - Yes.
- Did each team member work as scheduled?
 - Yes.

What went right?

- Everyone in the team maintained communication and worked well together.

How to address the issues in the next sprint?

- How to improve the process?
 - Plan for more frequent merges to avoid last-minute issues.
 - Keep schedules flexible, especially for tasks that may be more complex than expected.
- How to improve the product?
 - Focus on important features earlier in the project to leave room for fine-tuning.
