

## **Sprint Retrospective Meeting Minutes**

Attendees: Ryan Blanco, Chris Medina, Nicholas Llontop, Roy Molina

Start time: 5:30PM

End time: 6:30PM

### **What Went Right:**

We were able to complete the voiceover implementation as well as implement PhonelyAI even if we had to forgo using the API we were still able to create a solution that worked efficiently.

### **What Went Wrong:**

We were unable to use the PhonelyAI API as much as we wanted to, which resulted in us losing time trying to find a replacement. In the end we were able to use Phonely to simulate the phone call experience to the best of our abilities.

### **Team Performance:**

The team's performance has been great. Everyone is working hard on making the project come to life in a way that satisfies the needs of the Product Owner.

### **Product Quality:**

The product is completed and it is working properly.
