

Sprint Backlog Grooming Meeting Minutes #2

Attendees: Jose Manuel Hermida-Larios, Valerie Hernandez, Diego Jones, Matthew Larrosa, Alex Narvaez-Echeverria

Start time: 10:00pm

End time: 10:30pm

The following user stories were created/discussed/refined/prioritized.

- All user stories were completed.

The user stories below are completed.

- User Story #1: I want to interact with a mock UI so that I can visualize how the system will look and function before full development begins.
- User Story #2: I want to have a dedicated repository for the project so that I can manage and track code.
- User Story #3: I want to have clear system requirements for pet guardian and architecture design that supports these requirements.
