What went wrong?

- Did we do a good job estimating our team's velocity?
 - Yes, we already have a grasp of the amount of work the team is willing to contribute each week and plan accordingly.
 - Did we do a good job estimating the points (time required) for each user story?
 - Yes, these last sprint we've been conservative with estimating the stories giving enough time for those in the group to contribute.
- Did each team member work as scheduled?
 - Yes,

What went right?

- Initial development is going well even with our hampered scheduling.

How to address the issues in the next sprint?

- How to improve the process?
 - Work on communication and teamwork, our schedules do not all align but we should find any time where we can all work on development.
- How to improve the product?
 - At this moment we are not focused on improvement just simply development
