

Sprint Planning Meeting Minutes:

Attendees: Jose Manuel Hermida-Larios, Valerie Hernandez, Diego Jones, Matthew Larrosa, Alex Narvaez-Echeverria

Start time: 8:30 PM

End time: 9:00 PM

After discussion, the velocity of the team was estimated to be the length of a sprint.

The product owner chose the following user stories to be done during the next sprint. They are ordered based on their priority.

- **User Story: Appointment Editing**
 - As a user once an appointment is created I would like to be able to view the appointment, having it as a reminder, and also if needed I would like to be able to edit appointment time, change the date, or cancel if need be.
- **Acceptance Criteria**
 - To successfully accept this feature once an appointment is made the details on the appointment should be able to be viewed on the screen, and certain prompts such as clicking the time or date should allow for editing. There should also be a clearly visible cancel button that once clicked and confirmed cancels said booked appointment.
- **User story 2: Prescription (Rx) Overview**
 - As a user I would like to access any prescriptions that may be correlated to my pet.
- **Acceptance Criteria**
 - To accept this feature once a pet's profile is viewed there should be a clearly visible section with a list of any and all prescriptions correlated to said pet. Users should have the option to click any individual prescription to see details
- **User story 3: Prescription (Rx) Overview**
 - As a user I would like to access any prescriptions that may be correlated to my pet.
- **Acceptance Criteria**
 - To accept this feature once a pet's profile is viewed there should be a clearly visible section with a list of any and all prescriptions correlated to said pet. Users should have the option to click any individual prescription to see details
