

Daily Scrum Meetings

Date: 09/15/2024

Attendees: Richard Chong, Andres Lopez, Michael Camelio, Carlos Ramirez, Jason Martinez

Start time: 9:45pm

End time: 10pm

- Student1: Richard Chong

- What have you done since the last scrum meeting?

Today I was looking at the code for the frontend. Also, today I was trying to fix the issue I was having with react js. Although I fixed one of the problems, another ended up popping up.

- What is planned to be done until the next scrum meeting?

I plan on trying to fix my react js to get it working properly so i can start working on the code.

- What are the hurdles?

One of the hurdles I'm facing is getting used to the differences between react js and html. Although they are similar they have some major differences as well. Also understanding the code of the previous people is another hurdle. Also, I have been having some trouble with React JS not wanting to work so I have to fix that.

- Student 2: Andres Lopez

- What have you done since the last scrum meeting?

I have reviewed react basics and gone over the code base

- What is planned to be done until the next scrum meeting?

I will review the video sent by Vincent and clean the old teams group so that everyone can join for the meeting.

- What are the hurdles?

None for this meeting.

- Student 3: Michael Camelio
 - What have you done since the last scrum meeting?

Reorganizing and collecting documentation to start run the server
 - What is planned to be done until the next scrum meeting?

Run the server
 - What are the hurdles?

Time management
- Student 4: Carlos Ramirez
 - What have you done since the last scrum meeting?

Research creating packages and planning out how we should do it to be as efficient as possible.
 - What is planned to be done until the next scrum meeting?

Continue going over the code and begin testing with existing code. Continue research on package development.
 - What are the hurdles?

Working with the currently used packages and determining whether or not it would be beneficial to replace them with the others and considering the overall effect this would have.
- Student 5: Jason Martinez
 - What have you done since the last scrum meeting?

Learning React and how to compile the STARSGPT Back and Front end
 - What is planned to be done until the next scrum meeting?

Try and figure out how STARSGPT works in regards to backend.
 - What are the hurdles?

Working with a new programming language and figuring out how to translate that programming language into something I can apply to the backend.
