

Daily Scrum Meetings

Date: 09/17/2024

Attendees: Richard Chong, Andres Lopez, Michael Camelio, Carlos Ramirez, Jason Martinez

Start time: 10pm

End time: 10:15pm

- Student1: Richard Chong

- What have you done since the last scrum meeting?

Today i was looking at the code left behind by the other team and i also finally fixed the issues i had with react js and launching the live server.

- What is planned to be done until the next scrum meeting?

I plan on integrating the chat gpt 4 logo into the project. I will also be trying to find a way to do it without breaking the code.

- What are the hurdles?

One of the hurdles that I am currently facing is that I'm trying to implement code without breaking the whole system. Also, although I fixed the issue with react js and the live server, now I'm dealing with the chatbot not loading in.

- Student 2: Andres Lopez

- What have you done since the last scrum meeting?

I have reviewed react basics and gone over the code base

- What is planned to be done until the next scrum meeting?

I will review the video sent by Vincent and clean the old teams group so that everyone can join for the meeting.

- What are the hurdles?

None for this meeting.

- Student 3: Michael Camelio
 - What have you done since the last scrum meeting?

Reviewing old documentation to start run the server
 - What is planned to be done until the next scrum meeting?

Run the server
 - What are the hurdles?

Time management

Missing recent notes and instructions for the existing code on how to be run.
- Student 4: Carlos Ramirez
 - What have you done since the last scrum meeting?

Continued research creating packages and planning out how we should do it to be as efficient as possible.
 - What is planned to be done until the next scrum meeting?

Continue going over the code and begin testing with existing code. Continue research on package development.
 - What are the hurdles?

Working with the currently used packages and determining whether or not it would be beneficial to replace them with the others and considering the overall effect this would have.
- Student 5: Jason Martinez
 - What have you done since the last scrum meeting?

Looking at ways to learn python imports for the backend portion of the project.
 - What is planned to be done until the next scrum meeting?

Learning python through Exercism and Leetcode.
 - What are the hurdles?

Learning how imports work would be a challenge in regards to Python.
