

Daily Scrum Meetings

Date: 09/20/2024

Attendees: Richard Chong, Andres Lopez, Michael Camelio, Carlos Ramirez, Jason Martinez

Start time: 9:45pm

End time: 10pm

- Student1: Richard Chong

- What have you done since the last scrum meeting?

Today I tried fixing the issue I was having with not being able to proceed with conversing with the chatbot.

- What is planned to be done until the next scrum meeting?

I plan on integrating the chat gpt 4 logo into the project. I will also be trying to find a way to do it without breaking the code. I am also trying to fix other issues I have.

- What are the hurdles?

One of the hurdles that I am currently facing is that I'm trying to implement code without breaking the whole system. Also, although I fixed the issue with react js and the live server, now I'm dealing with the chatbot not loading in.

- Student 2: Andres Lopez

- What have you done since the last scrum meeting?

I have reviewed react basics and gone over the code base

- What is planned to be done until the next scrum meeting?

I will review the video sent by Vincent and clean the old teams group so that everyone can join for the meeting.

- What are the hurdles?

None for this meeting.

- Student 3: Michael Camelio

- What have you done since the last scrum meeting?

I have reviewed old documentation on how to run the application on a server on a web server.

- What is planned to be done until the next scrum meeting?

Designing a plan to set up the necessary infrastructure where the Application can be deployed.

- What are the hurdles?

Time management

Complexity of designing a new pipeline for the application.

- Student 4: Carlos Ramirez

- What have you done since the last scrum meeting?

Continued research creating python packages.

- What is planned to be done until the next scrum meeting?

Continue research on package creations and possible options for deployment of the program onto a server/other solution.

- What are the hurdles?

Working with the currently used packages and determining whether or not it would be beneficial to replace them with the others and considering the overall effect this would have.

- Student 5: Jason Martinez

- What have you done since the last scrum meeting?

Looking at ways to learn python imports for the backend portion of the project.

- What is planned to be done until the next scrum meeting?

Learning python through Exercism and Leetcode.

- What are the hurdles?

Learning how imports work would be a challenge in regards to Python.
