

Daily Scrum Meetings

Date: 09/26/2024

Attendees: Richard Chong, Andres Lopez, Michael Camelio, Carlos Ramirez, Jason Martinez

Start time: 9:45pm

End time: 10pm

- Student1: Richard Chong

- What have you done since the last scrum meeting?

Today I tried fixing the issue I was having with not being able to proceed with conversing with the chatbot. I also plan on looking into some documents to find the issue.

- What is planned to be done until the next scrum meeting?

I am trying to fix an issue that wont let me advance with development. It's an issue with the database connection and computer. It loses connection every time I try to start a conversation with the ai.

- What are the hurdles?

One of the hurdles that I am currently facing is that I'm trying to implement code without breaking the whole system. Also, although I fixed the issue with react js and the live server, now I'm dealing with the chatbot not loading in.

- Student 2: Andres Lopez

- What have you done since the last scrum meeting?

I have reviewed react basics and gone over the code base

- What is planned to be done until the next scrum meeting?

I will review the video sent by Vincent and clean the old teams group so that everyone can join for the meeting.

- What are the hurdles?

None for this meeting.

- Student 3: Michael Camelio

- What have you done since the last scrum meeting?

Designed an infrastructure plan for running the application on a KFSCIS server.

- What is planned to be done until the next scrum meeting?

Continue working on how running the application on a university's server could be possible.

Adjust other parts of the back-end to the new infrastructure.

Share the infrastructure plan with team members to get feedback.

- What are the hurdles?

Time management

Complexity of the new infrastructure for the application.

- Student 4: Carlos Ramirez

- What have you done since the last scrum meeting?

Continue research on package creations and possible options for deployment of the program onto a server/other solution.

- What is planned to be done until the next scrum meeting?

Continued research creating python packages and create a better understanding of how the backend is currently set up.

- What are the hurdles?

Working with the currently used packages and determining whether or not it would be beneficial to replace them with the others and considering the overall effect this would have.

- Student 5: Jason Martinez

- What have you done since the last scrum meeting?

Using Exercism to Learn Python.

- What is planned to be done until the next scrum meeting?

Learning more about backend for the project.

- What are the hurdles?

Learning how imports work would be a challenge in regards to Python.
