

Daily Scrum Meetings

Date: 10/3/2024

Attendees: Richard Chong, Andres Lopez, Michael Camelio, Carlos Ramirez, Jason Martinez

Start time: 9:45pm

End time: 10pm

- Student1: Richard Chong
 - What have you done since the last scrum meeting?

Planning out what i'm going to be doing for streamlit. So transition to it can be smooth for everyone.
 - What is planned to be done until the next scrum meeting?

I am planning on getting a head start on the front end using streamlit and start designing some things.
 - What are the hurdles?

Some of the hurdles are going to be transitioning the previous stuff to streamlit.
- Student 2: Andres Lopez
 - What have you done since the last scrum meeting?
 - I initialized the Repo readme. And created a demo version of the product
 - Decided to replace existing front end with streamlit
 - What is planned to be done until the next scrum meeting?
 - Run demo with Dr.Wells tomorrow.
 - upload to stars repo
 - What are the hurdles?
 - I completely forgot to upload the repo today.
- Student 3: Michael Camelio

What have you done since the last scrum meeting?

- Worked on downloading the new OS to run the EC2 Instance

What is planned to be done until the next scrum meeting?

- Finished installation of the OS
- Open Ports

What are the hurdles?

- Time management .

- Student 4: Carlos Ramirez

- What have you done since the last scrum meeting?

Begin learning how to use streamlit and become familiar with the imports we currently use and begin creating connection between frontend and backend

- What is planned to be done until the next scrum meeting?

Continue working with streamlit and continue research on connecting it with our existing backend as well as brainstorming new user features/functions to implement to diversify our product.

- What are the hurdles?

Learning how to use streamlit and beginning to plan out the possible new features we plan on adding and how to implement them while making sure they are each beneficial and fully-thought through.

- Student 5: Jason Martinez

- What have you done since the last scrum meeting?

Continuing researching how to connect a [MySQL to an EC2 instance](#) (Might use tutorial linked here)

- What is planned to be done until the next scrum meeting?

Try and finish how to connect MySQL to an EC2 instance

- What are the hurdles?

Never did anything server related before, so learning this would be a challenge.
