

Daily Scrum Meetings

Date: 10/15/2024

Attendees: Richard Chong, Andres Lopez, Michael Camelio, Carlos Ramirez, Jason Martinez

Start time: 9:45pm

End time: 10pm

- Student1: Richard Chong
 - What have you done since the last scrum meeting?

I have been working on the login form today and updated it. Also, made changes to it.
 - What is planned to be done until the next scrum meeting?

I plan on continuing the development of the frontend and plan on continuing to transition to streamlit
 - What are the hurdles?

Some of the hurdles are going to be transitioning the previous stuff to streamlit. Also, getting it to connect with the database.
- Student 2: Andres Lopez
 - What have you done since the last scrum meeting?
 - Working on extending classes. Added an image analysis class that give sentiment on images, graphs etc.
 - What is planned to be done until the next scrum meeting? Upload, and coordinate server and pypi official release.
 - Update repo, create tasks for team mates for back log upload
 - What are the hurdles?
 - None

- Student 3: Michael Camelio
 1. What have you done since the last scrum meeting?
 - Created users for all members of the team to access the EC2 instance, waiting on them to run commands.
 - Created users for all members of the team to access the Database.
 2. What is planned to be done until the next scrum meeting?
 - After team members run the commands needed to establish proper connection to the instance, I will complete their profiles and credentials
 - Develop API endpoints.
 3. What are the hurdles?
 - Team responses have not been ideal, there has been almost no engagement on these subtasks.
 - Getting feedback needed to finish up the credentials for the remote instance of the server.

- Student 4: Carlos Ramirez
 - What have you done since the last scrum meeting?

Continue working with streamlit and continue research on connecting it with our existing backend as well as brainstorming new user features/functions to implement to diversify our product.

- What is planned to be done until the next scrum meeting?

Research open source packages to use for our front end and design.

- What are the hurdles?

Researching possible image generators in search of free API, have not been able to find one that meets our needs although I did find a possible usable plugin. Must now research further on how to implement this into our website and make it display correctly/adapt to our needs.

- Student 5: Jason Martinez
 - What have you done since the last scrum meeting?

Some more troubleshooting and trying to get mySQL to work now that I'm connected, should be fixed up tomorrow.

- What is planned to be done until the next scrum meeting?

Getting mySQL to work with the EC2 instance

- What are the hurdles?

Mainly troubleshooting and fixing errors that may come up, using GPT to help me if need be
