

Daily Scrum Meetings

Date: 11/05/2024

Attendees: Richard Chong, Andres Lopez, Michael Camelio, Carlos Ramirez, Jason Martinez

Start time: 9:30pm

End time: 10pm

- Student1: Richard Chong

- What have you done since the last scrum meeting?

I have made an attempt at creating a database in mongoDB and still need to connect it to the main page.

- What is planned to be done until the next scrum meeting?

I plan on fully bringing the database online as soon as possible and integrating it.

- What are the hurdles?

Also, having issues with one of the requirements from the txt file. It is not downloading for me. I am also having issues understanding how to use mongoDB.

- Student 2: Andres Lopez

- What have you done since the last scrum meeting?

- Released on pypi
- Pushed massive changes to structure
- Finalized AI Framework

- What is planned to be done until the next scrum meeting?

- Begin working with other teammates to address final tasks with GUI and front end.

- What are the hurdles?

- None, distribution build was successful and no conflicts occurred.

- Student 3: Michael Camelio
 1. What have you done since the last scrum meeting?
 - Testing API endpoints with OpenAI API using Postman.
 2. What is planned to be done until the next scrum meeting?
 - Fix issues related to the interactions between API and EC2 instance.
 - Set up the SSL certificate.
 3. What are the hurdles?
 - Time Management.

- Student 4: Carlos Ramirez

- What have you done since the last scrum meeting?

Continue fixing issues with singleton class and continue implementing it to work with OpenAI and Groq.

- What is planned to be done until the next scrum meeting?

Finalize implementing a new singleton class and ensure it works for both models. Begin adding agents for data handling and possible image generator and continue research on TTS API we can implement.

- What are the hurdles?

Updating and envisioning

- Student 5: Jason Martinez

- What have you done since the last scrum meeting?

Got Certbot installed and haven't had any luck with auto-renewal of the SSL certificate from Let's Encrypt

- What is planned to be done until the next scrum meeting?

Continue working on the certbot stuff, maybe try and see if I could help Andres or Carlos with anything regarding streamlit after that is finished.

- What are the hurdles?

Troubleshooting any potential issues with installing certbot
