

## **Shortcomings/Wishlist's**

- As a member of the STARS team, we wished that we could have fully added a profile system for the user.
- As a member of the STARS team, one of the Shortcomings was that the profile system had its bugs, and we did not have enough time to fix it for the end.
- As a member of the STARS team, we wished that we could add a history of the previous chats that the user has had with the Stars chatbot.
- As a member of the STARS team, we would like to implement other LLM's. So, we do have to only use ChatGPT's LLM.
- As a member of the STARS team, we would like to see users be able to upload their own documents.
- As a member of the STARS team, we would have liked to add the ability to generate images as well for the user to better understand the concept they are being taught.
