

Sprint Backlog Grooming

- Project: STARSGPT
- Attendees: Richard Chong, Andres Lopez, Micheal Camelio, Carlos Ramirez, Jason Martinez
- Start time: 9:15pm
- End time: 10pm

After discussion, we realized we would need to continue with the user stories/tasks assigned to this sprint as follows.

We decided that we can continue working on the code that was left behind by the other group, which was agreed upon by the rest of the group. Here is the list of user stories and/or tasks ordered based on their priority.

- Story 1: As part of the team, we will be adding finalizing touches to our documentation for the project.
 - Prepare and ensure everything is in order for our final deliverable
 - Prepare for our presentation

The team members were willing to work on the following user stories/tasks.

- Richard Chong willing to work on story 1
- Andres Lopez willing to work on story 1
- Carlos Ramirez willing to work on Story 1
- Michael Camelio, willing to work on story 1.
- Jason Martinez, willing to story 1
