What went wrong?

- Did we do a good job estimating our team's velocity?
 - We did a decent job estimating the velocity but work schedules and such got in the way.
- Did we do a good job estimating the points (time required) for each user story?
 - Overall, we did a good job estimating the points (time required) for each user story with the exception of user story 1 and 4.
- Did each team member work as scheduled?
 - Yes, each team member works as scheduled.

What went right?

- We quickly got the database up and running and we knew the idea of what was to be done.

How to address the issues in the next sprint?

- How to improve the process?
 - Just merely continue to get to know and mesh with each team member.
- How to improve the product?
 - We just need to improve the speed that our user stories get accomplished by gaining more experience.
