

Sprint Planning Meeting Minutes:

Attendees: Gigi Arbelo, Jonathan Gil, Nicolas Smith, Careca McRae

Start time: 7:00 PM

End time: 8:30 PM

After discussion, the team's velocity was estimated to be a moderate-paced team, not rushing, but also not dragging.

The product owner chose the following user stories to be done during the next sprint. They are ordered based on their priority.

- User Story #1: Find the appropriate platform to develop a website that educates users about security measures, to include modules, video training, etc. **(Completed)**
- User Story # 2: Develop a step by step training module that educates users in cyber security measures. **(In progress)**
- User Story # 3: Provide training references such as websites, books, etc. for different areas in cyber security for user information purposes. **(In progress)**
- User Story # 4: Research different areas in cyber security measures that will provide security training to individuals who use the site. **(In progress)**
- User Story #5: Create a certificate of completion for users who finish the training module at the end of the course. **(Completed)**
- User Story #6: Create a domain for the website. The domain name we chose is as follows - cybertrainingfiu.com. **(Completed)**
- User Story #7: Create the homepage of the website. **(Completed)**
- User Story #8: Create sub-pages for the training modules. **(In progress)**
- User Story #9: Create an outline of the training modules that will be used. **(In progress)**
- User Story #10: Publish the domain once the website is complete so that it is made available to the users. **(In progress)**
- User Story #11: Connect the site to Google Search Console. **(In progress)**
- User Story #12: Add a favicon to our site. **(Completed)**
- User Story #13: Expand the website into subpages where the user may choose the course they would like to take. **(In progress)**.
- User Story #14: Create subpages for the introduction course. **(In progress)**.
- User Story #15: Redesign our website's aesthetic to give it a cleaner and more user-friendly design. **(Completed)**
- User Story #16: Design a certificate of compilation for users who complete the knowledge course. **(Completed)**
- User Story #17: Edit our bio on the homepage to give users an introduction into who we are and what our purpose is. **(Completed)**

- User Story #18: Updating our cyber security training course to include all the basic functions and information needed for our users. **(Completed)**
- User Story #19: Create a badge for the user once the cyber course is completed. **(In progress)**
