Welcome to the AI-Based Tutoring Chatbot for STARS. This guide will walk you through the steps to use the application effectively. Whether you're signing in, creating a new conversation, or adjusting settings, this manual has you covered.

Table of Contents

1. Signing In
2. Create Account
3. Creating a New Conversation
4. Using the Conversation Features
5. Switching Themes
6. Accessing Saved Conversations
7. Settings and Sign-Out

Signing In

To start using the AI-Based Tutoring Chatbot, you need an FIU account with an @fiu.edu email address. Here's how to sign in:

1. Open the application.
2. On the login screen, enter your FIU email address and password.
3. Click "Sign In"

Create Account

To use the AI-Based Tutoring Chatbot for STARS, you need to create an account with a valid FIU email address (@fiu.edu). Follow these steps to set up your account:

- 1. Open the Application**
Launch the AI-Based Tutoring Chatbot for STARS on your device.
- 2. Navigate to the Account Creation Page**
If you are a new user, find the "Create Account" or "Sign Up" option.

3. Enter Your Email

- In the "Email" field, enter your FIU email address (e.g., example@fiu.edu).
- In the "Confirm Email" field, re-enter your FIU email address to confirm.

4. Set Your Password

- Choose a secure password and enter it in the "Password" field.
- Re-enter the password in the "Confirm Password" field to confirm.

5. Agree to Terms and Conditions

Before you can create an account, you must agree to the terms and conditions. Click the checkbox to confirm your agreement.

6. Submit

After entering all the required information, click "Submit" to create your account.

7. Account Created

Once your account is created, you can sign in with your new credentials and start using the application.

Creating a New Conversation

Once you're signed in, you can create a new conversation to interact with the chatbot. Follow these steps:

1. On the main screen/dashboard, click "New Conversation."
2. Fill in the conversation details:
 - **Conversation Title:** Give your conversation a descriptive title.
 - **Description:** Add any relevant context or information about the conversation.
 - **ChatGPT Model:** Select the desired ChatGPT model for the conversation.
3. Click "Submit."
4. You can now start chatting with the chatbot.

Using the Conversation Features

During your conversation, you can take notes and save them for later reference. Here's how to do it:

1. While chatting, look for the note-taking feature.
2. Add your notes in the designated area. These notes will be saved within the conversation.
3. Notes save automatically.

Switching Themes

You can customize the appearance of the application by switching between light mode and dark mode. To switch themes:

1. Locate the theme toggle button.
2. Click to switch between light mode and dark mode.

Accessing Saved Conversations

To revisit past conversations or find specific information, you can access your saved conversations. Here's how:

1. On the main dashboard, look for the list of saved conversations.
2. You can scroll through the list or use the search feature to find a specific conversation.
3. Click on a conversation to open it.

Settings and Sign-Out

To access application settings or sign out, follow these steps:

1. On the main dashboard, click the settings icon.
2. From the settings menu, you can adjust various features and preferences.
3. To sign out, click the "Sign Out" button.

Tips for a Good Conversation

To make the most out of your interactions with the AI-Based Tutoring Chatbot for STARS, here are a few tips:

Be Clear with Your Questions

1. When you ask questions, be specific about what you're looking for. Clear questions lead to clearer answers.

Provide Context

2. Share what you know and your perspective on the topic. The chatbot performs better when it understands your thought process and opinions.

Ask Follow-Up Questions

3. Don't hesitate to ask for more information if needed. This keeps the conversation flowing and helps deepen your understanding.

Take Notes

4. Use the note-taking feature to jot down important points during the conversation. This helps you keep track of key insights.

Stay Engaged

5. Discuss not only the answers but also the reasoning behind them. Engaging with the material enhances your learning experience.
