

Team Standup

Meeting Information

Project: DemoEd

Sprint #: 2

Date: 02/07/2024

Product Owner: Dr. Sat Gavassa

Team Leader: Alisa Chavez

Discussion

Member 1

Name: David Giles

What have you done since the last scrum meeting?

- Solved issues with my local mongodb server not connecting

What is planned?

- Divide the stylizing and other front-end work
- Investigate what changes will need to be made to website for new question page

List hurdles and/or current issues:

- Computer issues after a windows update

Name: Franklin Neves

What have you done since the last scrum meeting?

- I have tested another teammate's research for implementation of this feature and provided a GitHub repo for the whole team to access.

What is planned to be done until the next scrum meeting?

- I have finalized the Collection. And Updated the Readme to a certain extent explaining the purpose of this application, and about the connections throughout the app to my best capabilities.

List hurdles and/or current issues:

- I have 2 other exams this week, for operating systems, and stats which I really need to focus on.

Member 3

Name: Batiah Sinepha

What have you done since the last scrum meeting?

- Identified what can be used to edit and implement interactive section(s)
- Reviewed a demo made by member 2, implementing the methods found by another teammate.
- Met with team members to further discuss individual findings on aids that can be used to assist our understanding

What is planned to be done until the next scrum meeting?

- creating needed interactive section(s)
- instructor account is not being recognized by the server, figure out why
- Split into groups and work on different needed components – design & implementation

List hurdles and/or current issues:

- - Other course assignments don't leave much time on my schedule
- - Logging in to instructor and student accounts

Member 4

What have you done since the last scrum meeting?

I met with my teammates regarding the library, from React, we will use to implement the drag-and-drop function.

What is planned to be done until the next scrum meeting?

I will partner with team to plan the structure of the function and make plans to start implementing it

List hurdles and/or current issues:

Projects and upcoming exams

Member 5

Name: Alisa Chavez

What have you done since the last scrum meeting?

Discussed demo drawbacks, product goals, and current progress with each story.

What is planned to be done until the next scrum meeting?

Ensure React functionality and clean up code, as well as hopefully resolving instructor account problems.

List hurdles and/or current issues:

Been a very busy week—progress has been slow.
