

Sprint Review Meeting Minutes

Attendees: Michaela Dunston, Mario Vega, Eduardo Chung, & Alejandro Arrocha

Start time: 23:55

End time: 23:58

After a show and tell presentation, the following advancements were accepted by the product owner.

- Software's to be utilized: Gophish is an open-source phishing framework that simplifies testing your organization's vulnerability to phishing attacks.
- Researched types of simulated phishing security awareness training. (Udemy)
- Developing a testing plan to ensure we meet specific requirements.
- Document specifications, decisions and any other relevant information related to the advancements.
- Testing group was selected and approved.
- Create unique phishing email templates.
- Phishing Campaign created.
- Adding all the information needed for the campaign.
- Started testing out with some users.
- Phishing training course created.

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Spring Planning meeting.

- All advancements were accepted.
