

Daily Scrum Meeting Minutes:

Attendees: Mario Oliva, Jonathan Smith, Adeel Hye, Sergio Roa, Ismail

Start time: 11:00AM

End time: 12:30PM

Mario Oliva:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Successfully bypassed the CSRF checks the controller class uses to connect to the NextCloud server
 - Used the LDAPProvider class inside my LDAP service to work on establishing a connection
- What is planned to be done until the next scrum meeting?
 - Update team repository with the LDAP connection working inside the service class
 - Assist the rest of the team with the attribute change endpoint implementation
- What are the hurdles?
 - There is not much documentation of the LDAPProvider or any of its functions

Adeel Hye:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting?
 - Edited JS file to be send form data from NextAD to the endpoint
 - Setup PUT endpoint and controller
- What is planned to be done until the next scrum meeting?
 - Help Get LDAP connected to our local application
- What are the hurdles?
 - Lack of documentation

Jonathan Smith:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting
 - Finally successfully connected NextCloud and can do so have any device
- What is planned to be done until the next scrum
 - Focusing on endpoint creation
- What are the hurdles?

- Lack of experience within the use of APIs

Sergio Roa:

- How many hours did I work since the last meeting?
 - 3 hours
- What was done since the last scrum meeting
 - Removed separate controller and transferred method into PageController
 - Configured possible endpoint to use the method in PageController
 - Adjusted variables within JS file to be saved in cookies to be used within the PageController method connected to the endpoint in route.php
- What is planned to be done until the next scrum
 - Test endpoint configuration and adjust it accordingly
 - Resolve error where changes to App appear on local nextcloud server sometimes but disappears the next time
- What are the hurdles?
 - Lack of access to AD/LDAP within the App
 - Basic level understanding of routes, controllers and APIs

Ismail:

- How many hours did I work since the last meeting?
 - 3 Hours
- What was done since the last scrum meeting
 - Research controller and router documents
- What is planned to be done until the next scrum
 - Implement Endpoints
- What are the hurdles?
 -
