

FIU Doctor Booking System (Sprint 1 - Day 11)

Date: 09/07/23

Attendees: Mohammad Kazmi, Jason Eduardo Kildare, Abel Aguilera

Start time: 9:30 PM

End time: 10:00 PM

Mohammad Kazmi:

- What have you done since the last scrum meeting?
 1. I've worked on completing the profile update option to update the email addresses, names, phone numbers and fee per consultation for the doctors.
 2. I've begun working on receiving a confirmation message to the user once the appointment has been booked, so that the user has a record of it.
- What is planned to be done until the next scrum meeting?
 1. I plan to test the profile update option for both users and the doctors and check whether they are able to properly update their information and that information is visible to both the users and the doctors.
 2. I plan to begin working on the confirmation message functionality so that a user receives confirmation when they book an appointment.
- What are the hurdles?
 1. Finding bugs and issues in the source code and how to fix them.
 2. Identifying how to implement the confirmation message functionality such that a user receives a confirmation message after booking an appointment.

Jason Eduardo Kildare:

- What have you done since the last scrum meeting?
 1. I implemented 2FA into the application. I have to add a 2FA field for existing and new users in the database.
- What is planned to be done until the next scrum meeting?
 1. I plan to add a specialization for doctors so users know which doctors to choose.
- What are the hurdles?
 1. Adding new key-value pairs for 2FA code in the database for new users

Abel Aguilera:

- What have you done since the last scrum meeting?
 1. I did some research on how i can modify the availability to book appointments accordingly
- What is planned to be done until the next scrum meeting?
 1. Finish working on user story 4 and start on user story 2
- What are the hurdles?
 1. No hurdles
