

FIU Doctor Booking System (Sprint 1 - Day 12)

Date: 09/08/23

Attendees: Mohammad Kazmi, Jason Eduardo Kildare, Abel Aguilera

Start time: 9:00 PM

End time: 9:30 PM

Mohammad Kazmi:

- What have you done since the last scrum meeting?
 1. I've worked on testing the profile update option for both users and the doctors and check whether they are able to properly update their information and that information is visible to both the users and the doctors.
 2. I've worked on the confirmation message functionality so that a user receives a confirmation when they book an appointment
- What is planned to be done until the next scrum meeting?
 1. I plan to complete the confirmation message functionality so that user receives a confirmation after booking and appointment with all necessary details
 2. I plan to begin working on the appointment summary provided to the user after an appointment has been completed with a user so that the user has a record of their appointment.
- What are the hurdles?
 1. Finding bugs and issues in the source code and how to fix them.
 2. Identifying how to implement the records functionality for users to view their appointment summary after their appointment has been completed.

Jason Eduardo Kildare:

- What have you done since the last scrum meeting?
 1. I completed implementing 2FA.
 2. Added a dropdown menu listing dummy doctor specializations.
- What is planned to be done until the next scrum meeting?
 1. I will need to populate the drop down menu from the doctors in the database.
- What are the hurdles?
 1. Getting each doctors specialization from the database and populating them in the drop down menu.

Abel Aguilera:

- What have you done since the last scrum meeting?
 1. I did some research on how i can modify the availability to book appointments accordingly
- What is planned to be done until the next scrum meeting?
 1. Finish working on user story 4 and start on user story 2
- What are the hurdles?
 1. No hurdles
