

FIU Doctor Booking System (Sprint 1 - Day 3)

Date: 08/30/23

Attendees: Mohammad Kazmi, Jason Eduardo Kildare, Abel Aguilera

Start time: 10:10 PM

End time: 10:40 PM

Mohammad Kazmi:

- What have you done since the last scrum meeting?
 1. I've worked on finalizing and completing the development of making the admin account capable of deleting/removing any user or doctor accounts when no longer needed.
 2. I've begun working on creating a specialization section for doctors to put a short description about their area of expertise, so that they are identifiable for patients accordingly.
- What is planned to be done until the next scrum meeting?
 1. I plan to work on completing and testing the specialization section for doctors, that the doctor is able to provide a short description.
 2. I plan to work on making the description provided by the doctor be visible to the patient on their account, so that patients can choose the doctor accordingly.
- What are the hurdles?
 1. Finding bugs and issues in the source code and how to fix them.
 2. Making the specialization section visible on the user's account.

Jason Eduardo Kildare:

- What have you done since the last scrum meeting?
 1. I worked on the logic for user story 5. I compared the time and dates available to book an appointment.
- What is planned to be done until the next scrum meeting?
 1. I plan to finish user story 5 and try to find more bugs and create more issues on github.
- What are the hurdles?
 1. Implementing the logic for user story 5 to work with the database.

Abel Aguilera:

- What have you done since the last scrum meeting?
 1. Looked for bugs in the code.
 2. Research on implementation of user stories.
- What is planned to be done until the next scrum meeting?
 1. Finishing my user story
- What are the hurdles?
 1. No hurdles
- 1. Connecting with the database.
