

FIU Doctor Booking System (Sprint 1 - Day 4)

Date: 08/31/23

Attendees: Mohammad Kazmi, Jason Eduardo Kildare, Abel Aguilera

Start time: 9:30 PM

End time: 10:00 PM

Mohammad Kazmi:

- What have you done since the last scrum meeting?
 1. I've worked on testing the specialization section for doctors such that a doctor is able to provide a short description about their area of expertise.
 2. I've begun working on making the specialization section visible to the user's account and plan to finish testing the visibility of the doctor's specification soon.
- What is planned to be done until the next scrum meeting?
 1. I plan to work on completing the visibility check of the doctor's specialization to the user account such that the description is visible to the user.
 2. I plan to begin working on fixing the appointment scheduling response to only schedule appointments for the times designated or provided by the doctors and not outside of that timeframe.
- What are the hurdles?
 1. Finding bugs and issues in the source code and how to fix them.
 2. Identifying how to implement the appointment time constraint for different timeframes.

Jason Eduardo Kildare:

- What have you done since the last scrum meeting?
 1. I worked on user story 5. I'm trying to match the appointment time chosen by the user and matching it with available time slots so they can book an appointment.
- What is planned to be done until the next scrum meeting?
 1. I plan to finish user story 5 and try to find more bugs and create more issues on github.
- What are the hurdles?
 1. Implementing the logic for user story 5 to work with the database.

Abel Aguilera:

- What have you done since the last scrum meeting?
 1. Started working on user story #4
- What is planned to be done until the next scrum meeting?
 1. Continue working on user story 4
- What are the hurdles?
 1. No hurdles
