

FIU Doctor Booking System (Sprint 1 - Day 5)

Date: 09/01/23

Attendees: Mohammad Kazmi, Jason Eduardo Kildare, Abel Aguilera

Start time: 9:40 PM

End time: 10:10 PM

Mohammad Kazmi:

- What have you done since the last scrum meeting?
 1. I've worked on testing the visibility of a doctor's specialization on the user account such that a user is able to view the area of expertise for a doctor.
 2. I've begun working on fixing the appointment scheduling response to schedule appointments only within the designated timings of the doctors.
- What is planned to be done until the next scrum meeting?
 1. I plan to work on completing the appointment scheduling response to correctly schedule appointments at the correct times.
 2. I plan to test the appointment scheduling response and check whether different timeframes are being considered when scheduling appointments.
- What are the hurdles?
 1. Finding bugs and issues in the source code and how to fix them.
 2. Identifying how to implement the appointment time constraint for different timeframes.

Jason Eduardo Kildare:

- What have you done since the last scrum meeting?
 1. I worked on user story 5 and looked for more bugs. I'm trying to match the appointment time chosen by the user and matching it with available time slots so they can book an appointment.
- What is planned to be done until the next scrum meeting?
 1. I plan to finish user story 5 and start working on user story 13.
- What are the hurdles?
 1. Implementing the logic for user story 5 to work with the database.

Abel Aguilera:

- What have you done since the last scrum meeting?
 1. Started working on user story #4
- What is planned to be done until the next scrum meeting?
 1. Continue working on user story 4
- What are the hurdles?
 1. No hurdles
