

FIU Doctor Booking System (Sprint 3 - Day 10)

Date: 10/04/23

Attendees: Mohammad Kazmi, Jason Eduardo Kildare

Start time: 8:50 PM

End time: 9:20 PM

Mohammad Kazmi:

- What have you done since the last scrum meeting?
 1. I have worked on making the user enter their email address and then the code is sent to that user's email address.
- What is planned to be done until the next scrum meeting?
 1. I plan to make the code valid for 15 minutes and then allow the user to change their password.
- What are the hurdles?
 1. None so far.

Jason Eduardo Kildare:

- What have you done since the last scrum meeting?
 1. I worked on user story 2. I created a patient model and a function for when the user submits their medical history. The function makes a request to the server, sending the users info. I also created a route on the server to handle the request, but it is not fully functional. I am still trying to store the users data into an array in the database.
- What is planned to be done until the next scrum meeting?
 1. I plan to work more on user story 2 and try to finish the the feature..
- What are the hurdles?
 1. None.
