

FIU Doctor Booking System (Sprint 5 - Day 3)

Date: 10/25/23

Attendees: Mohammad Kazmi, Jason Eduardo Kildare

Start time: 10:15 PM

End time: 10:45 PM

Mohammad Kazmi:

- What have you done since the last scrum meeting?
 1. I have completed the monitoring of log-in attempts as the user is notified about when they log-in as well as the Admin tracks which user logged in at which time and at what location.
- What is planned to be done until the next scrum meeting?
 1. I plan to begin working on maintaining logs of all user activity such as updates, appointments booked and the number of times they visit the app during the day.
- What are the hurdles?
 1. None so far.

Jason Eduardo Kildare:

- What have you done since the last scrum meeting?
 1. I started working on user story #1, creating a log of user logins. I have created a collection in the database called “audit_login” that tracks when a user successfully logs in. I will create another collection for logs when a user changes their PHI. So far, when a user logs in, it is logged into the collection “audit_login” and I will be working on one for audit changes.
- What is planned to be done until the next scrum meeting?
 1. I plan to finish user story 1.
- What are the hurdles?
 1. None
