

Cap II – CY – Fall 2023

Team: Nextcloud App: Exploring Integration with VulScan

Sprint Backlog Grooming Meeting Minutes

9/05/2023

Attendees: Marlon Iglesias Diaz, Theodore Atis, Daniel Granados

Start time: 6:00 PM

End time: 7:00 PM

The following user stories were created/discussed/refined/prioritized.

User Story #1 (NextCloud):

- Our team conducted research on the NextCloud platform from a high-level perspective. We explored installations on various platforms, including completed installations on Windows Desktop Client, Android Mobile, IOS Mobile, and the Web Client. Additionally, the team discovered documentation for NextCloud app development tutorials on the NextCloud Website. These tutorials should flatten the learning curve starting with setting up a development environment.
- The team has discussed installing the Nextcloud development environment on Windows to proceed with our project and understands this will require the use of Ubuntu and Docker containers.
- We are currently on schedule to complete the Sprint and complete the project discussion by the specified deadline.
