What went wrong?

- Did we do a good job estimating our team's velocity?
 - Yes, we were able to keep a consistent pace and make progress according to our estimations at the beginning of the sprint.
- Did we do a good job estimating the points (time required) for each user story?
 - Yes, we were able to complete the user stories in the time frame that was established.
- Did each team member work as scheduled?
 - Yes, each team member completed the assigned user stories and attended each meeting as planned.

What went right?

- We were able to communicate effectively and work as a team to accomplish our goals.

How to address the issues in the next sprint?

- How to improve the process?
 - Process could be improved by communicating more with the Product Owner via a shared group chat so that small questions can be cleared up before the official weekly meeting
- How to improve the product?
 - Continue to improve the front-end design and work on resolving any back-end bugs and implementing functionalities that may be missing
