

Sprint Backlog Grooming Meeting Minutes:

Attendees: Nicole Cruz, Ashley Enalien, Rafael Mejia Galvan, Hubert Cabrera, Enrique Portela

Start time: 8:30

End time: 8:45

The following tasks were created/discussed/refined/prioritized:

- Each group member has successfully completed user story one, which entailed getting familiar with the environment and existing code
- $\frac{2}{3}$ group members are experiencing an API key error when they attempt to sign in to the site, so a user story has been created to address this error for those members
- User story two, which entails creating mock-up designs to replace the existing icons has been prioritized throughout the sprint, as every member can work on this even if they are unable to sign in.
