What went wrong?

- Did we do a good job estimating our team's velocity?
 - Yes, we were able to keep a consistent pace and make progress according to our estimations at the beginning of the sprint.
- Did we do a good job estimating the points (time required) for each user story?
 - Yes, we were able to complete the user stories in the time frame that was established. 6 user stories were rescheduled due to complexity or lack of resources.
- Did each team member work as scheduled?
 - Yes, each team member completed the assigned user stories and attended each meeting as planned.

What went right?

- We were able to fix the API Key issue that some members were having and work together to update several pages on the application

How to address the issues in the next sprint?

- How to improve the process?
 - Process could be improved by asking PO to rank the remaining user stories based on priorit
- How to improve the product?
 - Continue to improve the front-end design and work on resolving any back-end bugs and implementing functionalities that may be missing.
