

Sprint Retrospective Meeting Minutes 30 minutes

Attendees: Jennsy Cespedes, Michael Beall, Christopher Puglisi, Jamsher Nigmatulloev, Eduardo Marcucci, Brandon Castano, Jose Fernandez

What went wrong?

- Did we do a good job estimating our team's velocity?
 - Achieved the allotted velocity for this sprint efficiently and successfully.
- Did we do a good job estimating the points (time required) for each user story?
 - Each story was estimated to approximately the appropriate velocity for each student depending on capstone 1, 2, or senior project.
- Did each team member work as scheduled?
 - Each team member fulfilled all their tasks and parts on their tickets efficiently.

What went right?

- Research into each ticket created on Trello went well and the meeting with the product owner went well as well.

How to address the issues in the next sprint?

- How to improve the process?
 - Shape up a bit more on communication between groupmates working on each ticket and tackling each ticket together as a group after finishing your own.
- How to improve the product?
 - The project can be improved by creating a cheaper and more complex prototype while adequately fulfilling all the processes the product needs to accomplish .
