

Sprint 1 Review Meeting Minutes

Attendees: John Perez, Thiago Novaes, Samantha Loeb, Garcia Milord, Faran Majeed, Jose Arosemena, Anthony Pena, Ricardo Colom, Richard Uriarte

Start time: 3:30 PM EST

End time: 3:45 PM EST

Date:9/10/2021

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners (Note that this first portion shows what was talked about with the product owner and was finished):

- **WEBSNAK-1 Research Firebase (2 points)**
 - As a developer, I should conduct research on how Firebase is being implemented into the Snackability Web App.
- **WEBSNAK-2 Research Implementation of Admin Page for PO (3 points)**
 - As a developer, I should conduct research on different ways to implement an admin page for the product owner.
- **WEBSNAK-3 Research Azure (5 points)**
 - As a developer, I should conduct research on how to deploy the Snackability Web App using Microsoft Azure.
- **WEBSNAK-4 Deploy the Snackability Web App (5 points)**
 - As a developer, I should deploy the Snackability Web App using Microsoft Azure.
- **WEBSNAK-5 Start Implementing a Contact Us page (5 points)**
 - As a developer, I should start working on a contact us page that will serve as a way for users to request access to the web app.

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Sprint Planning meeting (This section has stories that were developed with the product owner but are not finished or approved).

The product owner is available on Monday and this had to be done beforehand so it is not a complete representation of what will be discussed and redone.

Sprint 2 Review Meeting Minutes

Attendees: John Perez, Thiago Novaes, Samantha Loeb, Garcia Milord, Faran Majeed, Jose Arosemena, Anthony Pena, Ricardo Colom, Richard Uriarte

Start time: 3:30 PM EST

End time: 4:00 PM EST

Date:9/24/2021

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners (Note that this first portion shows what was talked about with the product owner and was finished):

- **WEBSNAK-6 Make a create account page (5 points)**
 - As a developer, I should make a “create account” page.
- **WEBSNAK-7 Make a reset password page (5 points)**
 - As a developer, I should make a “reset password” page.
- **WEBSNAK-8 Research ways to implement the login system (5 points)**
 - As a developer, I should conduct research on different methods of implementing a login system.
- **WEBSNAK-9 Research custom domains for Snackability (3 points)**
 - As a developer, I should conduct research on some potential custom domains for Snackability.
- **WEBSNAK-10 Research how to restrict access to a page (2 points)**
 - As a developer, I should find ways of restricting access to a page and only allowing specific users on that page.

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Sprint Planning meeting (This section has stories that were developed with the product owner but are not finished or approved).

The product owner is available on Monday and this had to be done beforehand so it is not a complete representation of what will be discussed and redone.

Sprint 3 Review Meeting Minutes

Attendees: John Perez, Thiago Novaes, Samantha Loeb, Garcia Milord, Faran Majeed, Jose Arosemena, Anthony Pena, Ricardo Colom, Richard Uriarte

Start time: 3:30 PM EST

End time: 3:45 PM EST

Date: 10/8/2021

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners (Note that this first portion shows what was talked about with the product owner and was finished):

- **WEBSNAK-11 Implement a role system into the web app (5 points)**
 - As a developer, I should implement a role system into the web app.
- **WEBSNAK-12 Start working on fixing the snack score generation (3 points)**
 - As a developer, I should start fixing bugs in the snack score generation.
- **WEBSNAK-13 Improve the create account page (2 points)**
 - As a developer, I should improve upon what was done in the create account page.
- **WEBSNAK-14 Research ways to implement the role system (5 points)**
 - As a developer, I should conduct research on different methods of implementing a role system.
- **WEBSNAK-15 Research Firebase Custom User Claims (3 points)**
 - As a developer, I should conduct research on Firebase's custom user claims and whether they can help with the role system's implementation.

 - As a developer, I start researching ways of fixing the issue with the processed foods score generation.

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Sprint Planning meeting (This section has stories that were developed with the product owner but are not finished or approved).

The product owner is available on Monday and this had to be done beforehand so it is not a complete representation of what will be discussed and redone.

Sprint 4 Review Meeting Minutes

Attendees: John Perez, Thiago Novaes, Samantha Loeb, Garcia Milord, Faran Majeed, Jose Arosemena, Anthony Pena, Ricardo Colom, Richard Uriarte

Start time: 3:30 PM EST

End time: 3:45 PM EST

Date: 10/24/2021

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners (Note that this first portion shows what was talked about with the product owner and was finished):

- **WEBSNAK-17 Fix bug when generating a processed food score (5 points)**
 - As a developer, I should fix the bug found in the processed foods part of the snack score component.
- **WEBSNAK-18 Fix any other bugs found by the PO related to the snack score (5 points)**
 - As a developer, I should fix any other bugs found by the PO related to the snack score component of the webapp.
- **WEBSNAK-19 Research a potential database implementation for the snack score component (5 points)**
 - As a developer, I should research a potential database implementation for the snack score component.
- **WEBSNAK-20 Research ways to implement the administration system (3 points)**
 - As a developer, I should conduct research on different methods of implementing an administration system.
- **WEBSNAK-21 Research Firestore (2 points)**
 - As a developer, I should conduct research on Firebase's Firestore as a potential database for the snack score component.

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Sprint Planning meeting (This section has stories that were developed with the product owner but are not finished or approved).

The product owner is available on Monday and this had to be done beforehand so it is not a complete representation of what will be discussed and redone.

Sprint 5 Review Meeting Minutes

Attendees: John Perez, Thiago Novaes, Samantha Loeb, Garcia Milord, Faran Majeed, Jose Arosemena, Anthony Pena, Ricardo Colom, Richard Uriarte

Start time: 3:30 PM EST

End time: 3:45 PM EST

Date: 11/5/2021

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners (Note that this first portion shows what was talked about with the product owner and was finished):

- **WEBSNAK-22 Start implementing the administration page (5 points)**
 - As a developer, I should start implementing the administration page which will allow the PO to manage and see who has access to the web app.
- **WEBSNAK-24 Test searching different snacks and determine if the 1st ingredient score calculation is faulty (5 points)**
 - As a developer, I should test searching different snacks in order to determine if the 1st ingredient score calculation is faulty.
- **WEBSNAK-25 Continue researching ways to implement the administration page (3 points)**
 - As a developer, I should continue conducting research on different methods of implementing the administration page.
- **WEBSNAK-26 Research ways of improving the usability of the app (2 points)**
 - As a developer, I should conduct research on ways of improving the usability of the app. For example, determining where in the app to add help icons with more information.

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Sprint Planning meeting (This section has stories that were developed with the product owner but are not finished or approved).

- **WEBSNAK-23 Improve the Snack Score display page (5 points)**
 - As a developer, I should improve the snack score display page in order to make it more user friendly and more obvious of what snack you're consuming.

The product owner is available on Monday and this had to be done beforehand so it is not a complete representation of what will be discussed and redone.

Sprint 6 Review Meeting Minutes

Attendees: John Perez, Thiago Novaes, Samantha Loeb, Garcia Milord, Faran Majeed, Jose Arosemena, Anthony Pena, Ricardo Colom, Richard Uriarte

Start time: 3:30 PM EST

End time: 3:45 PM EST

Date: 11/21/2021

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners (Note that this first portion shows what was talked about with the product owner and was finished):

- **WEBSNAK-23 Improve the Snack Score display page (5 points)**
 - As a developer, I should improve the snack score display page in order to make it more user friendly and more obvious of what snack you're consuming.
- **WEBSNAK-27 Fix the bug in the 1st ingredient score (3 points)**
 - As a developer, I should fix the bug in the 1st ingredient part of the snack score calculator.
- **WEBSNAK-28 Start making the web app more mobile friendly: navigation bar (2 points)**
 - As a developer, I should start making the web app more mobile friendly, specifically, the navigation bar.
- **WEBSNAK-29 Research other ways of making the app more mobile friendly (5 points)**
 - As a developer, I should conduct research on ways of making the web app more mobile friendly.
- **WEBSNAK-30 Research ways of pulling necessary information from the USDA API (5 points)**
 - As a developer, I should conduct research on ways of pulling necessary information from the USDA API.

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Sprint Planning meeting (This section has stories that were developed with the product owner but are not finished or approved).

The product owner is available on Monday and this had to be done beforehand so it is not a complete representation of what will be discussed and redone.

Sprint 7 Review Meeting Minutes

Attendees: John Perez, Thiago Novaes, Samantha Loeb, Garcia Milord, Faran Majeed, Jose Arosemena, Anthony Pena, Ricardo Colom, Richard Uriarte

Start time: 3:30 PM EST

End time: 3:45 PM EST

Date: 11/26/2021

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners (Note that this first portion shows what was talked about with the product owner and was finished):

- **WEBSNAK-31 Clean up the web app's code (5 points)**
 - As a developer, I should clean up the web app's code to make it easier to read.
- **WEBSNAK-32 Prepare Capstone 1 for next semester (5 points)**
 - As a developer, I should host meetings with the students of Capstone 1 to prepare them for next semester.
- **WEBSNAK-33 Attend the meetings hosted by the Capstone 2 members (5 points)**
 - As a developer, I should attend all of the meetings hosted by Capstone 2 to prepare for next semester.
- **WEBSNAK-34 Ask Capstone 2 any questions we may have (5 points)**
 - As a developer, I should talk to Capstone 2 whenever we run into issues understanding the web app.

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Sprint Planning meeting (This section has stories that were developed with the product owner but are not finished or approved).

The product owner is available on Monday and this had to be done beforehand so it is not a complete representation of what will be discussed and redone.
