Sprint One

Date:08/30/2021

Sprint: 1

Scrum Daily Standup day #: 1

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz , Musa Jean, Zackary Wright

Start time: 5:00 pm

End time: 5:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Getting in contact with all the team members. Deciding on a day to start the meetings
- What is planned to be done until the next scrum meeting?
 - Deciding on the OS, programming language, and the database that will be used.
- What are the hurdles?
 - Choosing when to start the meetings time wise.

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Set up Google Docs and Group Whatsapp
- What is planned to be done until the next scrum meeting?
 - Decide on whether to create an iOS or Android App, what database to use and figure out how to coordinate said meetings
- What are the hurdles?
 - Conflicting schedules for meeting times.

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Looked over the syllabus as well as gather information on the materials needed for this class.

- What is planned to be done until the next scrum meeting?
 - The operating system of the App(ios or android) deciding which programming language to use, as well as which database to use. Looking over the time periods we are able to meet as well as days we can meet to schedule accordingly. Deciding the roles of each member.
- What are the hurdles?
 - Hurdles that we are experiencing are the decision of the meetup times for now as well as the programming languages that are going to be used.

Brian Mora

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Prepare for class and set up all the discord and whatsapp group
- What is planned to be done until the next scrum meeting?
 - For the next meeting we will plan what os we will develop the app for as well as the role that each student will be taking in the project.
- What are the hurdles?
 - Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Watch programming tutorials
- What is planned to be done until the next scrum meeting?
 - For the next meeting, the team will work on deciding which operating system (ios or android) we'll use to develop the app. Additionally, we'll be deciding which programming language will be used for the app.
- What are the hurdles?
 - We are trying to find the most appropriate times to meet as a team for our daily scrum meetings.

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Set up Google Docs, Whatsapp group, and Discord group

- What is planned to be done until the next scrum meeting?
 - We'll discuss the operating system we'll construct the app on, as well as the roles that each student will play in the project.
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - We were able to set Google Docs, Whatsapp Group Chat, and Discord Server up.
- What is planned to be done until the next scrum meeting?
 - For the next group meeting we are going to give a determined task to each member of the Project Team.
 - Decide which Operating System to work with for the app development
- What are the hurdles?
 - We need to find out the best time for the Project Team members to meet up.

Zackary Wright:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Getting team and communication channels set up
- What is planned to be done until the next scrum meeting?
 - Understanding what is necessary in terms of tools/resources to work on the project
- What are the hurdles?
 - Figuring out the meeting times that would be best for everyone on the team.

Musa Jean:

- How many hours did I work since the last meeting?
 - N/A.
- What was done since the last scrum meeting?
 - Setting up the team. This was the first meeting, so not much to be done.
- What is planned to be done until the next scrum meeting?
 - Dive deep into the required resources to start.
- What are the hurdles?
 - Not a tough hurdle, but deciding iOS OR Android.

Sprint: 1

Scrum Daily Standup day #: 2

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz, Musa Jean, Zackary Wright

Start time: 5:00 pm

End time: 5:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Getting in contact with all the team members. Deciding on a day to start the meetings
- What is planned to be done until the next scrum meeting?
 - Deciding on the OS, programming language, and the database that will be used.
- What are the hurdles?
 - Choosing when to start the meetings time wise.

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Created Technologies Requirement Document,
- What is planned to be done until the next scrum meeting?
 - Decide what database to use and general project architecture
 - Contact Product Owner for clearer requests
- What are the hurdles?
 - Unknown required functionality

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Looked over the syllabus as well as gather information on the materials needed for this class.
- What is planned to be done until the next scrum meeting?
 - The operating system of the App(ios or android) deciding which programming language to use, as well as which database to use. Looking over the time periods we are able to meet as well as days we can meet to schedule accordingly. Deciding the roles of each member.
- What are the hurdles?
 - Hurdles that we are experiencing are the decision of the meetup times for now as well as the programming languages that are going to be used.

Brian Mora

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Prepare for class and set up all the discord and whatsapp group
- What is planned to be done until the next scrum meeting?
 - For the next meeting we will plan what os we will develop the app for as well as the role that each student will be taking in the project.
- What are the hurdles?
 - Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Review class syllabus, join team's whatsapp group and discord server.
- What is planned to be done until the next scrum meeting?
 - For the next meeting, the team will work on deciding which operating system (ios or android) we'll use to develop the app. Additionally, we'll be deciding which programming language will be used for the app.
- What are the hurdles?
 - We are trying to find the most appropriate times to meet as a team for our daily scrum meetings.

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Set up Google Docs, Whatsapp group, and Discord group
- What is planned to be done until the next scrum meeting?
 - We'll discuss the operating system we'll construct the app on, as well as the roles that each student will play in the project.
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?

- N/A
- What was done since the last scrum meeting?
 - We were able to set Google Docs, Whatsapp Group Chat, and Discord Server up.
- What is planned to be done until the next scrum meeting?
 - For the next group meeting we are going to give a determined task to each member of the Project Team.
 - Decide which Operating System to work with for the app development
- What are the hurdles?
 - We need to find out the best time for the Project Team members to meet up.

Zackary Wright:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Getting team and communication channels set up
- What is planned to be done until the next scrum meeting?
 - Understanding what is necessary in terms of tools/resources to work on the project
- What are the hurdles?
 - Figuring out the meeting times that would be best for everyone on the team.

Musa Jean:

- How many hours did I work since the last meeting?
 - N/A.
- What was done since the last scrum meeting?
 - Setting up the team. This was the first meeting, so not much to be done.
- What is planned to be done until the next scrum meeting?
 - Dive deep into the required resources to start.
- What are the hurdles?
 - Not a tough hurdle, but deciding iOS OR Android. Choosing meeting time that satisfies all members.

Date: 9/1/2021

Sprint: 1

Scrum Daily Standup day #: 3

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz, Musa Jean, Zackary Wright

Start time: 4:00 pm

End time: 4:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Made the decision to use Android for the App.
- What is planned to be done until the next scrum meeting?
 - Decide the roles of all the members.
- What are the hurdles?
 - Getting the info needed from the product owner.

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Read upon Scrum Methodology and the background on the technologies needed for a full stack application
- What is planned to be done until the next scrum meeting?
 - Decide what database to use and general project architecture
 - Contact Product Owner for clearer requests
- What are the hurdles?
 - Unknown required functionality

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Decided to go with Android as the APP of choice
- What is planned to be done until the next scrum meeting?
 - The operating system of the App(ios or android) deciding which programming language to use, as well as which database to use. Looking over the time periods we are able to meet as well as days we can meet to schedule accordingly. Deciding the roles of each member.
- What are the hurdles?
 - Waiting for more information on the previous project that will be given by the Product Owner

Brian Mora

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - We now have decided what os we are going to be using.
 - What is planned to be done until the next scrum meeting?
 - For the next meeting we will plan what os we will develop the app for as well as the role that each student will be taking in the project.
- What are the hurdles?

- Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - The team decided to use android as the operating system for the application.
- What is planned to be done until the next scrum meeting?
 - We'll be deciding which programming language will be used for the app.
- What are the hurdles?
 - We are trying to find the most appropriate times to meet as a team for our daily scrum meetings.

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Set up Google Docs, Whatsapp group, and Discord group, we decided the OS for the app
- What is planned to be done until the next scrum meeting?
 - We'll discuss the roles that each student will play in the project, Android was selected as the OS for the mobile app
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - We were able to set Google Docs, Whatsapp Group Chat, and Discord Server up.
 - We decided to pick Android as an Operating System for development of the app.
- What is planned to be done until the next scrum meeting?
 - Decide what others technology tools are going to be used for the app
- What are the hurdles?
 - We need to find out the best time for the Project Team members to meet up.
 - Understand the main topic of the project.

Zackary Wright:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Getting team and communication channels set up
 - Choosing the Operating System(Android) to be used for development.
- What is planned to be done until the next scrum meeting?
 - Understanding what other tools will be required for us to work on the project.
- What are the hurdles?
 - Figuring out the meeting times that would be best for everyone on the team.
 - Understanding the overall requirements of the project.

Musa Jean:

- How many hours did I work since the last meeting?
 - 1.
- What was done since the last scrum meeting?
 - Setting up the team. Choosing which OS we're developing on that best fit the team, which was Android.
- What is planned to be done until the next scrum meeting?
 - Synching on the additional technology the team will use.
 - Dive deep into the required resources to start.
- What are the hurdles?
 - Choosing consistent meeting time that satisfies all members. As we have members with conflicting schedules due to work.
 - Understanding the scope of the project.

Date: 9/3/2021

Sprint: 1

Scrum Daily Standup day #: 5

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz, Musa Jean, Zackary Wright

Start time: 4:00 pm

End time: 4:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - a. 1

- What was done since the last scrum meeting?
 - a. Did research on using Android programming language.
- What is planned to be done until the next scrum meeting?
 - a. Continuing research until we receive necessary information from the product owner.
- What are the hurdles?
 - a. Getting the info needed from the product owner.

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - a. 1
- What was done since the last scrum meeting?
 - a. Read upon Scrum Methodology and the background on the technologies needed for a full stack application
- What is planned to be done until the next scrum meeting?
 - a. Decide what database to use and general project architecture
 - b. Contact Product Owner for clearer requests
- What are the hurdles?
 - a. Unknown required functionality

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - a. 3
- What was done since the last scrum meeting?
 - a. Read up on Scrum as well as the procedures
 - b. Review the different IDE to choose which program to use
- What is planned to be done until the next scrum meeting?
 - a. Starting to give out roles on which role will be applied to each person
 - b. Reviewing which database will be necessary for the stack
 - c. Looking at tutorials on how to create a full-stack android application
- What are the hurdles?
 - a. Hurdles are still agreeing on a concrete time to meet with the group

Brian Mora

- How many hours did I work since the last meeting?
 - a. 2
- What was done since the last scrum meeting?
 - a. We now have decided what os we are going to be using.
 - b. What is planned to be done until the next scrum meeting?

- c. For the next meeting we will plan what os we will develop the app for as well as the role that each student will be taking in the project.
- What are the hurdles?
 - a. Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - The team decided to use android as the operating system for the application.
- What is planned to be done until the next scrum meeting?
 - We'll be deciding which programming language will be used for the app.
- What are the hurdles?
 - We are currently waiting for the product owner to provide the files from previous teams that have worked on this application

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - a. 1
- What was done since the last scrum meeting?
 - a. Set up Google Docs, Whatsapp group, and Discord group, we decided the OS for the app
- What is planned to be done until the next scrum meeting?
 - a. We'll discuss the roles that each student will play in the project, Android was selected as the OS for the mobile app
- What are the hurdles?
 - a. Trying to get a better understanding of what the project is about

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - a. 30 min
- What was done since the last scrum meeting?

- a. We were able to set Google Docs, Whatsapp Group Chat, and Discord Server up.
 - b. We decided to pick Android as an Operating System for development of the app.
- What is planned to be done until the next scrum meeting?
 - a. Decide what others technology tools are going to be used for the app
 - b. Started to watch several tutorials videos about how to start to build up an android mobile application
- What are the hurdles?
 - a. We need to find out the best time for the Project Team members to meet up.
 - b. Understand the main topic of the project.

Zackary Wright:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Choosing the Operating System(Android) to be used for development.
- What is planned to be done until the next scrum meeting?
 - Deciding the roles of each team member and how the work will be distributed.
- What are the hurdles?
 - Getting more information regarding the project from our project owner.

Musa Jean:

- How many hours did I work since the last meeting?
 - 2.
- What was done since the last scrum meeting?
 - Choosing which OS we're developing on that best fit the team, which was Android.
 - Initial information gathering for the project. How we connect with the other team building hardware.
- What is planned to be done until the next scrum meeting?
 - Synching on the additional technology the team will use.
- What are the hurdles?
 - Choosing consistent meeting time that satisfies all members. As we have members with conflicting schedules due to work.
 - Understanding the scope of the project.

Date: 9/7/2021

Sprint: 1

Scrum Daily Standup day #: 6

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz, Musa Jean, Zackary Wright

Start time: 9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 1. 1
- What was done since the last scrum meeting?
 1. Did research on using Android programming language.
- What is planned to be done until the next scrum meeting?
 1. Continuing research until we receive necessary information from the product owner.
- What are the hurdles?
 1. Getting the info needed from the product owner.

Alexander Jimenez:

- How many hours did I work since the last meeting?
 1. 1
- What was done since the last scrum meeting?
 1. Technology review of mobile code deployment frameworks.
- What is planned to be done until the next scrum meeting?
 1. Write up a list of functional requirements questions we have for the product owner to see if imagined architecture will suit her needs
- What are the hurdles?
 - a. Labor day on meeting day, no provision pre-made for holidays, delay of meeting

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 1. 3
- What was done since the last scrum meeting?
 1. Read up on Scrum as well as the procedures
 2. Review the different IDE to choose which program to use
- What is planned to be done until the next scrum meeting?
 1. Starting to give out roles on which role will be applied to each person
 2. Reviewing which database will be necessary for the stack
 3. Looking at tutorials on how to create a full-stack android application

- What are the hurdles?
 1. Deciding the OS

Brian Mora

- How many hours did I work since the last meeting?
 1. 2
- What was done since the last scrum meeting?
 1. We now have decided what os we are going to be using.
 2. What is planned to be done until the next scrum meeting?
 3. For the next meeting we will plan what os we will develop the app for as well as the role that each student will be taking in the project.
- What are the hurdles?
 1. Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - The team decided to use android as the operating system for the application.
- What is planned to be done until the next scrum meeting?
 - Look into the integration of mapbox for android applications. Wait for the product owner to provide us with the code the previous team developed to be able to start working of the application.
- What are the hurdles?
 - We are currently waiting for the product owner to provide the files from previous teams that have worked on this application

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 1. 1
- What was done since the last scrum meeting?
 1. Set up Google Docs, Whatsapp group, and Discord group, we decided the OS for the app
- What is planned to be done until the next scrum meeting?
 1. We'll discuss the roles that each student will play in the project, Android was selected as the OS for the mobile app
- What are the hurdles?
 1. Trying to get a better understanding of what the project is about

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 1. 2
- What was done since the last scrum meeting?
 1. We were able to set Google Docs, Whatsapp Group Chat, and Discord Server up.
 2. We decided to pick Android as an Operating System for development of the app.
- What is planned to be done until the next scrum meeting?
 1. Decide what others technology tools are going to be used for the app
 2. Started to watch several tutorials videos about how to start to build up an android mobile application
- What are the hurdles?
 1. We need to find out the best time for the Project Team members to meet up.
 2. Understand the main topic of the project.

Zackary Wright:

- How many hours did I work since the last meeting?
 - o 2
- What was done since the last scrum meeting?
 - o Learning additional information in regards to the project overall.
- What is planned to be done until the next scrum meeting?
 - o Deciding what technologies will be used for the frontend/backend for project.
- What are the hurdles?
 - o Finding a consistent meeting time that works for everyone on the team.

Musa Jean:

- How many hours did I work since the last meeting?
 - o 2.
- What was done since the last scrum meeting?
 - o Choosing which OS we're developing on that best fit the team, which was Android.
 - o Initial information gathering for the project. How we connect with the other team building hardware.
- What is planned to be done until the next scrum meeting?
 - o Meet with the product owner to gain more information.
- What are the hurdles?
 - o Choosing consistent meeting time that satisfies all members. As we have members with conflicting schedules due to work.
 - o Clarifying issues with product owner, and accessing resource for the project.

Date: 9/8/2021

Sprint: 1

Scrum Daily Standup day #: 7

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz, Musa Jean, Zackary Wright

Start time: 9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - a. 1
- What was done since the last scrum meeting?
 - a. Did research on using Android programming language.
 - b. Spoke to the product owner to gain further understanding of the project
- What is planned to be done until the next scrum meeting?
 - a. Continuing research until we receive necessary information from the product owner.
- What are the hurdles?
 - a. Getting the files needed from the product owner.

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - a. 2
- What was done since the last scrum meeting?
 - a. Technology review of mobile code deployment frameworks.
 - b. Wrote up a list of functional requirements questions we had for the product owner to see if imagined architecture will suit her needs
 - c. Clarified and formalized functionality requirements
- What is planned to be done until the next scrum meeting?
 - a. Continue Literature Review for basic Android App dev and get a HelloWorld running on a Bluestacks emulated device.
 - b. Start the Use Case Breakdown of the Functional Requirements
 - c. Start the project repo.
- What are the hurdles?
 - a. Lack of experience with Android Development

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - a. 3
- What was done since the last scrum meeting?

- a. Read up on the Android Development Environment and the new addition The Kotlin language
- What is planned to be done until the next scrum meeting?
 - a. Starting to give out roles on which role will be applied to each person
 - b. Reviewing which database will be necessary for the stack
 - c. Looking at tutorials on how to create a full-stack android application
- What are the hurdles?
 - a. Unknown territory when it comes to building an Android application

Brian Mora

- How many hours did I work since the last meeting?
 - a. 1.5
- What was done since the last scrum meeting?
 - a. Learning about android programming
- What is planned to be done until the next scrum meeting?
 - b. For the next meeting we will learn how to launch an android application
- What are the hurdles?
 - a. Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - The team met with the product owner to discuss project details
- What is planned to be done until the next scrum meeting?
 - Look into mapbox integration
- What are the hurdles?
 - We are currently waiting for the product owner to provide the files from previous teams that have worked on this application

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - a. 2

- What was done since the last scrum meeting?
 - a. Technology review
 - b. Meeting with the product owner
- What is planned to be done until the next scrum meeting?
 - a. Continue research on ways to develop the app
 - b. More questions for the product owner, more information needed
- What are the hurdles?
 - a. Get more information from the product owner
 - b. Get a better understanding of the project

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - a. 1
 - What was done since the last scrum meeting?
 - a. We were able to set Google Docs, Whatsapp Group Chat, and Discord Server up.
 - b. We decided to pick Android as an Operating System for development of the app.
 - What is planned to be done until the next scrum meeting?
 - a. We met with the Product Owner and she explained deeper what the project is about.
- What are the hurdles?
- b. We need to have a better idea of what technology is best for the app development
 - c. Understand the main topic of the project.

Zackary Wright:

1. How many hours did I work since the last meeting?
 - a. 2
2. What was done since the last scrum meeting?
 - a. Met with product owner to learn about project.
3. What is planned to be done until the next scrum meeting?
 - a. Meet with the product owner again to gain more information about the project.
 - b. Learn more about using map box for Android.
 - c. Show list of functional requirements so that they can be approved.
4. What are the hurdles?
 - a. Accessing the necessary tools required for the project.

Musa Jean:

1. How many hours did I work since the last meeting?
 - a. 2.
2. What was done since the last scrum meeting?

- a. Choosing which OS we're developing on that best fit the team, which was Android.
 - b. Initial information gathering for the project. How we connect with the other team building hardware.
 - c. Second meeting with the product owner.
- 3. What is planned to be done until the next scrum meeting?
 - a. Dive deep into mapbox and how it operates on Android.
 - b. Approve list of functional requirements for project.
- 4. What are the hurdles?
 - a. Choosing consistent meeting time that satisfies all members. As we have members with conflicting schedules due to work.
 - b. Clarifying needs with the product owner, and accessing resources for the project.

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz, Musa Jean, Zackary Wright

Start time: 9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 1. 1
- What was done since the last scrum meeting?
 - 1. Did research on using Android programming language.
- What is planned to be done until the next scrum meeting?
 - 1. Continuing research until we receive necessary information from the product owner.
- What are the hurdles?
 - 1. Getting the files needed from the product owner.

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 1. 1

- What was done since the last scrum meeting?
 1. Started Use Case breakdown of Functionality #1
- What is planned to be done until the next scrum meeting?
 1. Continue Literature Review for basic Android App dev and get a HelloWorld running on a Bluestacks emulated device.
 2. Start the project repo.
- What are the hurdles?
 - a. No Definitive Architecture yet

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 1. 3
- What was done since the last scrum meeting?
 1. Read up on the Android Development Environment and the new addition The Kotlin language
- What is planned to be done until the next scrum meeting?
 1. Starting to give out roles on which role will be applied to each person
 2. Reviewing which database will be necessary for the stack
 3. Looking at tutorials on how to create a full-stack android application
- What are the hurdles?
 1. Unknown territory when it comes to building an Android application

Brian Mora

- How many hours did I work since the last meeting?
 1. 1.5
- What was done since the last scrum meeting?
 1. Learning about android programming
- What is planned to be done until the next scrum meeting?
 - b. For the next meeting we will learn how to launch an android application
- What are the hurdles?
 1. Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - The team met with the product owner to discuss project details
- What is planned to be done until the next scrum meeting?
 - Look into mapbox integration
- What are the hurdles?

- We are currently waiting for the product owner to provide the files from previous teams that have worked on this application

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 1. 2
- What was done since the last scrum meeting?
 1. Technology review
 2. Meeting with the product owner
- What is planned to be done until the next scrum meeting?
 - a. Continue research on ways to develop the app
 - b. More questions for the product owner, more information needed
- What are the hurdles?
 1. Get more information from the product owner
 2. Get a better understanding of the project

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 1. 2
- What was done since the last scrum meeting?
 1. I started working on installing Android app development
 2. I started watching tutorials about Android app development environment.
- What is planned to be done until the next scrum meeting?
 1. We met with the Product Owner and she explained deeper what the project is about.
- What are the hurdles?
 - a. We need to have a better idea of what technology is best for the app development
 - b. Understand the main topic of the project.

Zackary Wright:

1. How many hours did I work since the last meeting?
 1. 2
2. What was done since the last scrum meeting?
 1. Met with team discuss functional requirements.
3. What is planned to be done until the next scrum meeting?
 1. Meet with the product owner again to gain more insight on future user stories.
 2. Learn more about using map box for Android.
 3. Show list of functional requirements so that they can be approved.
4. What are the hurdles?
 1. Accessing the Github and necessary tools required for the project.

Musa Jean:

1. How many hours did I work since the last meeting?
 1. 2.

2. What was done since the last scrum meeting?
 1. Choosing which OS we're developing on that best fit the team, which was Android.
 2. Initial information gathering for the project. How we connect with the other team building hardware.
 3. Looking at mapbox.
3. What is planned to be done until the next scrum meeting?
 1. Dive deep into mapbox and how it operates on Android.
 2. Possibly see the outcomes of choosing Android, initially we chose it because not all members have access to iOS.
 3. Approve list of functional requirements for project.
4. What are the hurdles?
 1. Choosing consistent meeting time that satisfies all members. As we have members with conflicting schedules due to work.
 2. Clarifying needs with the product owner, and accessing resources for the project.

Date: 9/11/2021

Sprint: 1

Scrum Daily Standup day #: 10

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz, Musa Jean, Zackary Wright

Start time: 9:00 pm

End time: 9:45 pm

- What are the hurdles?
 1. Getting the files needed from the product owner.

Alexander Jimenez:

- How many hours did I work since the last meeting?
 1. 1
- What was done since the last scrum meeting?
 1. Finished Use Case breakdown of Functionality #1
- What is planned to be done until the next scrum meeting?
 1. Continue Literature Review for basic Android App dev and get a HelloWorld running on any emulated device.
 2. Start the project repo.
- What are the hurdles?
 - a. No Definitive Architecture yet

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 1. 3
- What was done since the last scrum meeting?
 1. Decided to download an Android EMulator to create hello app
- What is planned to be done until the next scrum meeting?
 1. Finish creating hello world app in android studios
 2. Looking at the Udemy courses to start on android app creation
 3. Unknown territory when it comes to building an Android application
- What are the hurdles?
 1. Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Brian Mora

 - b. More questions for the product owner, more information needed
- What are the hurdles?
 1. Get more information from the product owner
 2. Get a better understanding of the project

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 1. 2
- What was done since the last scrum meeting?
 1. I created my HelloWorld! Design in the Android Emulator after setting up the whole Android environment.
 2. I started watching tutorials about Android apps.
- What is planned to be done until the next scrum meeting?
 1. Keep learning about Android development
- What are the hurdles?
 - a. I am going slow trying to learn the Android development since it is my first time working on it.

Zackary Wright:

1. How many hours did I work since the last meeting?
 1. 1
2. What was done since the last scrum meeting?
 1. Learning about map box.
3. What is planned to be done until the next scrum meeting?
 1. Meet with the product owner again to gain more insight on future user stories.
 2. Learn more about using map box for Android.
 3. Show list of functional requirements so that they can be approved.
4. What are the hurdles?
 1. Learning more about Android development.

Musa Jean:

1. How many hours did I work since the last meeting?
 1. 1.
2. What was done since the last scrum meeting?
 1. Choosing which OS we're developing on that best fit the team, which was Android.
 2. Some core functionality of the project, such as abilities of the user.
 3. Each team member selects a core functionality to dive deep into.
 4. Looking at mapbox.
3. What is planned to be done until the next scrum meeting?
 1. Dive deep into mapbox and how it operates on Android.
 2. Possibly see the outcomes of choosing Android, initially we chose it because not all members have access to iOS.
 3. Approve list of functional requirements for project.
4. What are the hurdles?
 1. Looking further into Android development,

Sprint Two

Date:09/13/2021

Sprint: 2

Scrum Daily Standup day #: 1

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz, Musa Jean, Zackary Wright

Start time:9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Downloaded the github repository from the product owner.
 - Reviewing the documentation of the github
- What is planned to be done until the next scrum meeting?
 - Continue researching Android OS.
 - Starting on user story #5 or #4 .
- What are the hurdles?
 - Having time conflicts

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Formalized and distributed the User Stories to be implemented this Sprint
- What is planned to be done until the next scrum meeting?
 - Create the Basic Page Structure of the App so that Branches may easily be made so that each team member can work on his own portion of the application.<#1>
- What are the hurdles?
 - A Working prototype has not been made yet so fitting together functionality is haphazard

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Distributed the project roles as well as the overall oversight of the project
 - Looked over Github Documentation CLI
- What is planned to be done until the next scrum meeting?
 - Integrating the Android Studios with the last Capstone 1 Project to see what plans can be started in the front end of the project
 - Look at the front end development of the android app for user homepage
 - Research formats and display outlooks in Android Studios
- What are the hurdles?
 - Hurdles that we are experiencing are navigational system
 - Conflicting schedules

Brian Mora

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Downloaded the github repository from the product owner.
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Work on a way for the user to retrieve data from the app .
- What are the hurdles?
 - Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?

- 1
- What was done since the last scrum meeting?
 - Looked over the code and information the product owner gave the team
- What is planned to be done until the next scrum meeting?
 - Work on the front end of the application
- What are the hurdles?
 - We are trying to find the most appropriate times to meet as a team for our daily scrum meetings.

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Set up Google Docs, Whatsapp group, and Discord group
- What is planned to be done until the next scrum meeting?
 - We'll discuss the operating system we'll construct the app on, as well as the roles that each student will play in the project.
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - I was able to set up the Android Development Tools to start working on the project app
 - I was able to run the Android Emulator.
- What is planned to be done until the next scrum meeting?
 - For the next group meeting we are going to give a determined task to each member of the Project Team.
- What are the hurdles?
 - We need to find out the best time for the Project Team members to meet up.

Zackary Wright:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?

- Core functionalities
- What is planned to be done until the next scrum meeting?
 - Learn AWS.
- What are the hurdles?
 - AWS.

Musa Jean:

- How many hours did I work since the last meeting?
 - 1.
- What was done since the last scrum meeting?
 - Recently we received access to the previous team's documents.
- What is planned to be done until the next scrum meeting?
 - Look further into Mapbox.
 - Familiarize myself with AWS.
 - Deciding necessary login information for users.
- What are the hurdles?
 - Consuming the information recently given and finding where to start.
 - Figuring out what specific information that could be stored on AWS.

 - Get familiar with technology required
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - I was able to set up the Android Development Tools to start working on the project app
 - I was able to run the Android Emulator.
- What is planned to be done until the next scrum meeting?
 - For the next group meeting we are going to give a determined task to each member of the Project Team.
- What are the hurdles?
 - We need to find out the best time for the Project Team members to meet up.

Zackary Wright:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Received Access to Resources from previous team
- What is planned to be done until the next scrum meeting?
 - Understanding more about AWS and authentication.
- What are the hurdles?
 - Figuring out what to prioritize when working on the project.

Musa Jean:

- How many hours did I work since the last meeting?
 - 1.
- What was done since the last scrum meeting?
 - Recently we received access to the previous team's documents.
- What is planned to be done until the next scrum meeting?
 - Look further into Mapbox with Android.
 - Get familiar with AWS.
 - Deciding necessary login information for users.
- What are the hurdles?
 - Consuming the information recently given and finding where to start.
 - Figuring out what specific information could be stored on AWS.

Date:09/20/2021

Sprint: 2
Scrum Daily Standup day #: 6

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez,,Brian Mora, Eddy Garcia, Alejandro Ruiz , Musa Jean, Zackary Wright

Start time:9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Worked on user story #5
- What is planned to be done until the next scrum meeting?
 - Continue researching Android OS.
- What are the hurdles?
 - Having issues running Android emulator

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Created Android application and Home Screen.
- What is planned to be done until the next scrum meeting?
 - Create the Basic Page Navigation of the App so that Branches may easily be made so that each team member can work on his own portion of the application.<#1>
- What are the hurdles?
 - A Working prototype has not been made yet so fitting together functionality is haphazard

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Started working on the front end code for the home application for the user

- Researched documents/videos on button position on android studio
- What is planned to be done until the next scrum meeting?
 - Keep working on the home app for the user set up
- What are the hurdles?
 - Trying to have a working Beta software

Brian Mora

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Downloaded the github repository from the product owner.
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Work on a way for the user to retrieve data from the app .
- What are the hurdles?
 - Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Watched tutorials and learn about AWS
- What is planned to be done until the next scrum meeting?
 - Work on the front end of the application
- What are the hurdles?
 - We are trying to find the most appropriate times to meet as a team for our daily scrum meetings.

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - See previos work on the project
- What is planned to be done until the next scrum meeting?
 - We'll discuss and work on the user stories assigned
 - Get familiar with technology required
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - I was able to set up the Android Development Tools to start working on the project app
 - I was able to run the Android Emulator.
- What is planned to be done until the next scrum meeting?
 - I am planning to finish my tasks given for Sprint 2
- What are the hurdles?
 - We still need to find out the best time for the Project Team members to meet up.

Zackary Wright:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Received Access to Resources from previous team
- What is planned to be done until the next scrum meeting?
 - Looking over work done by previous team.
- What are the hurdles?
 - Figuring out what to prioritize when working on the project.

Musa Jean:

- How many hours did I work since the last meeting?
 - 1.
- What was done since the last scrum meeting?
 - Recently we received access to the previous team's documents.
- What is planned to be done until the next scrum meeting?
 - Reviewing codebase.
 - Find classes that connect the backend API to database in AWS.
- What are the hurdles?
 - Consuming the information recently given and finding where to start.
 - Figuring out what specific information could be stored on AWS.

Date:09/21/2021

Sprint: 2

Scrum Daily Standup day #: 7

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez,Tomas Alvarez Lopez,Brian Mora, Eddy Garcia, Alejandro Ruiz , Musa Jean, Zackary Wright

Start time:9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Had to reinstall Android Studio
- What is planned to be done until the next scrum meeting?
 - Continue researching Android OS.
 - Learning Android Studio features around building notifications.
- What are the hurdles?
 - Having issues running Android emulator

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 7(6 from previous sheet, forgot to account)
- What was done since the last scrum meeting?
 - Created Android application and Home Screen with navigation to other pages
- What is planned to be done until the next scrum meeting?
 - Put on git repository so that others can merge their user stories into it themselves.
- What are the hurdles?
 - Extent of previous semesters work has not been precisely determined

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 3-5
- What was done since the last scrum meeting?
 - Finishing Water Wand preference page screen
- What is planned to be done until the next scrum meeting?
 - Test and finish the preference page for Water Wand
- What are the hurdles?
 - Finding resources in sources of android button connection

Brian Mora

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Downloaded the github repository from the product owner.
 - Worked on data storage

- What is planned to be done until the next scrum meeting?
 - Work on a way for the user to retrieve data from the app .

Sprint: 2

Scrum Daily Standup day #: 9

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, **Brian Mora**, Eddy Garcia, Alejandro Ruiz, **Musa Jean**, Zackary Wright

Start time:9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Worked on getting emulator fixed
- What is planned to be done until the next scrum meeting?
 - Continue researching Android OS.
 - Learning Android Studio features around building notifications.
 - Trying to fix the emulator.
- What are the hurdles?
 - Having issues running Android emulator

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 2

- What was done since the last scrum meeting?
 - Redoing the class/fragment design to reduce its convolution
- What is planned to be done until the next scrum meeting?
 - Finish fixing the design with the dashboard layout.
- What are the hurdles?
 - I've found a much cleaner and more organized way to implement what I had been kludging together

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 3-4
- What was done since the last scrum meeting?
 - Finishing Water Wand preference page screen
- What is planned to be done until the next scrum meeting?
 - Test and finish the preference page for Water Wand
 - Add eventlisteners to the button layouts of the app page
- What are the hurdles?
 - Android Emulator crashes or doesn't start on certain occasions

Brian Mora

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Downloaded the github repository from the product owner.
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Work on a way for the user to retrieve data from the app .

Sprint Three

Date:09/27/2021

Sprint: 3

Scrum Daily Standup day #: 1

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz, Musa Jean, Zackary Wright

Start time:9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - working on getting the emulator to work
 - Reviewing the documentation of the github
- What is planned to be done until the next scrum meeting?
 - Continue researching Android OS.
 - testing story #5
- What are the hurdles?
 - Having time conflicts

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Formalized and distributed the User Stories to be implemented this Sprint
- What is planned to be done until the next scrum meeting?
 - Finish the Basic Page Structure of under the new dashboard Model.<#1>
- What are the hurdles?
 - A new work breakdown structure has been decided upon with strong recommendation from the PO

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?

- 4
- What was done since the last scrum meeting?
 - Revised the distribution as well as went over last team Github code
- What is planned to be done until the next scrum meeting?
 - Integrating the Android Studios with the last Capstone 1 Project to see what plans can be started in the front end of the project
 - Look at the necessary API call for connecting the wand to the wand service
 - Research formats and display outlooks in Android Studios
- What are the hurdles?
 - Completing user stories
 - Method of delegating the new breakdown of roles to the user stories

Brian Mora

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Downloaded the github repository from the product owner.
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Work on a way for the user to retrieve data from the app .
- What are the hurdles?
 - Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Set up android studio, watch turioals about developing android applications.
- What is planned to be done until the next scrum meeting?
 - Work on Mapbox connectivity
- What are the hurdles?

The lack of knowledge of mapbox and how to work with it

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Set up Google Docs, Whatsapp group, and Discord group

- What is planned to be done until the next scrum meeting?
 - We'll discuss the operating system we'll construct the app on, as well as the roles that each student will play in the project.
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - I was able to set up the Android Development Tools to start working on the project app
 - I was able to run the Android Emulator.
- What is planned to be done until the next scrum meeting?
 - Start working on stories #7 and #8
- What are the hurdles?
 - We need to find good resources for improving out Mobile Development skills

Zackary Wright:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Planning for current sprint
- What is planned to be done until the next scrum meeting?
 - Finish setting up Android Studio.
 - Working on assigned work items #11 and # 4.
- What are the hurdles?
 - Understanding how and whether to use current codebase in GitHub.

Musa Jean:

- How many hours did I work since the last meeting?
 - 2.
- What was done since the last scrum meeting?
 - Setup Android Studio, was able to have the emulator running and deployed HelloWorld.
- What is planned to be done until the next scrum meeting?
 - Create an AWS account.
- What are the hurdles?
 - Reading the source code on GitHub. It's unclear and lacks a clarifying README on how it works.
 - Using AWS SDK to connect to the database.

Date:09/28/2021

Sprint: 3

Scrum Daily Standup day #: 2

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz, Musa Jean, Zackary Wright

Start time: 9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Got the emulator working
 - Reviewing the documentation of the github
- What is planned to be done until the next scrum meeting?
 - Continue researching Android OS.
 - Testing story #5
- What are the hurdles?
 - N/A

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Added additional button to navigation bar.
- What is planned to be done until the next scrum meeting?
 - Finish the Basic Page Structure of under the new dashboard Model.<#1>
- What are the hurdles?
 - N/A

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Revised the distribution as well as went over last team Github code
 - Started working on the event listeners for buttons on application
 - Documentation of other apps with certain information setting layouts
- What is planned to be done until the next scrum meeting?

- Have the Data Decisions layout working for deployment
- What are the hurdles?
 - Android studios emulator is very slow

Brian Mora

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Downloaded the github repository from the product owner.
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Work on a way for the user to retrieve data from the app .
- What are the hurdles?
 - Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Set up android studio, watch tutorials about developing android applications.
- What is planned to be done until the next scrum meeting?
 - Work on Mapbox connectivity
- What are the hurdles?

The lack of knowledge of mapbox and how to work with it

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Set up Google Docs, Whatsapp group, and Discord group
- What is planned to be done until the next scrum meeting?
 - We'll discuss the operating system we'll construct the app on, as well as the roles that each student will play in the project.
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?

- 2

- What was done since the last scrum meeting?
 - I was able to set up the Android Development Tools to start working on the project app
 - I was able to run the Android Emulator.
- What is planned to be done until the next scrum meeting?
 - Start working on stories #7 and #8
- What are the hurdles?
 - We need to find good resources for improving our Mobile Development skills

Zackary Wright:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Planning for current sprint
- What is planned to be done until the next scrum meeting?
 - Finish setting up Android Studio.
 - Working on assigned work items #11 and # 4.
- What are the hurdles?
 - Understanding how and whether to use current codebase in GitHub.

Musa Jean:

- How many hours did I work since the last meeting?
 - 2.
- What was done since the last scrum meeting?
 - Setup Android Studio, was able to have the emulator running and deployed HelloWorld.
- What is planned to be done until the next scrum meeting?
 - Create an AWS account.
- What are the hurdles?
 - Reading the source code on GitHub. It's unclear and lacks a clarifying README on how it works.
 - Using AWS SDK to connect to the database.

Date:09/29/2021

Sprint: 3

Scrum Daily Standup day #: 3

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz, Musa Jean, Zackary Wright

Start time: 9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Looking into debugging methods to fix story # 5
 - Reviewing the documentation of the github
 - Created a test run for the emulator to see if it works
- What is planned to be done until the next scrum meeting?
 - Continue researching Android OS.
 - Testing story #5
- What are the hurdles?
 - First time using Android Studio's debugging system

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Added an additional button to navigation bar.
- What is planned to be done until the next scrum meeting?
 - Finish the Basic Page Structure of under the new dashboard Model.<#1>
- What are the hurdles?
 - N/A

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Revised the distribution as well as went over last team Github code
 - Started working on the event listeners for buttons on application
 - Looked at video of event listeners for java
- What is planned to be done until the next scrum meeting?
 - Have the Data Decisions layout working for deployment
- What are the hurdles?
 - N/a

Brian Mora

- How many hours did I work since the last meeting?
 - 2

- What was done since the last scrum meeting?
 - Downloaded the github repository from the product owner.
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Work on a way for the user to retrieve data from the app .
- What are the hurdles?
 - Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Set up android studio, watch tutorials about developing android applications.
- What is planned to be done until the next scrum meeting?
 - Work on Mapbox connectivity
- What are the hurdles?

The lack of knowledge of mapbox and how to work with it

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Set up Google Docs, Whatsapp group, and Discord group
- What is planned to be done until the next scrum meeting?
 - We'll discuss the operating system we'll construct the app on, as well as the roles that each student will play in the project.
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - I was able to set up the Android Development Tools to start working on the project app
 - I was able to run the Android Emulator.

- What is planned to be done until the next scrum meeting?
 - Start working on stories #7 and #8
- What are the hurdles?
 - We need to find good resources for improving our Mobile Development skills

Zackary Wright:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Planning for current sprint
- What is planned to be done until the next scrum meeting?
 - Finish setting up Android Studio.
 - Working on assigned work items #11 and # 4.
- What are the hurdles?
 - Understanding how and whether to use current codebase in GitHub.

Musa Jean:

- How many hours did I work since the last meeting?
 - 2.
- What was done since the last scrum meeting?
 - Setup Android Studio, was able to have the emulator running and deployed HelloWorld.
- What is planned to be done until the next scrum meeting?
 - Create an AWS account.
- What are the hurdles?
 - Reading the source code on GitHub. It's unclear and lacks a clarifying README on how it works.
 - Using AWS SDK to connect to the database.

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz, Musa Jean, Zackary Wright

Start time: 9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Reviewing the documentation of the github
- What is planned to be done until the next scrum meeting?
 - Continue researching Android OS.
 - Testing story #5
- What are the hurdles?
 - N/A

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Finished navigation map,
- What is planned to be done until the next scrum meeting?
 - Integrate other pages.
- What are the hurdles?
 - N/A

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Look over a documentation on over onCreate functionality
 - Fixing bugs in the action view changer in android studios
 - Looking over Intent action Documentation
 - Research over obtaining data through the AWS cloud
 - Able to create new action of button onclick
 - Discussed AWS database usage
 - Looker over AWS implementation as well a postman app usage
- What is planned to be done until the next scrum meeting?
 - Overlooking documentation on new activities in Android Studios
- What are the hurdles?
 - Prior Github code was in Swift, group decided to work on android

Brian Mora

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Work on a way for the user to retrieve data from the app .
- What are the hurdles?
 - Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Set up android studio, watch tutorials about developing android applications.
- What is planned to be done until the next scrum meeting?
 - Work on Mapbox connectivity
- What are the hurdles?

The lack of knowledge of mapbox and how to work with it

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Set up Google Docs, Whatsapp group, and Discord group
- What is planned to be done until the next scrum meeting?
 - We'll discuss the operating system we'll construct the app on, as well as the roles that each student will play in the project.
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - I was able to set up the Android Development Tools to start working on the project app

- I was able to run the Android Emulator.
- What is planned to be done until the next scrum meeting?
 - Start working on stories #7 and #8
 - Start watching tutorial videos about the implementation of the Mabox API.
 - I have to review the Github Repository given by the Product Owner
- What are the hurdles?
 - We need to find good resources for improving out Mobile Development skills

Zackary Wright:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Learning more about development in Android Studio
- What is planned to be done until the next scrum meeting?
 - Working on retrieval of user data
- What are the hurdles?
 - Retrieving and saving user data.

Musa Jean:

- How many hours did I work since the last meeting?
 - 1.
- What was done since the last scrum meeting?
 - Applied a few lessons learned from Android fundamentals.
 - Learned some AWS fundamentals through the console.
- What is planned to be done until the next scrum meeting?
 - Use a database through SDK.
- What are the hurdles?
 - Using AWS SDK to connect to the database.

Sprint Four

Date:10/11/2021

Sprint: 4

Scrum Daily Standup day #: 1

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz , Musa Jean, Zackary Wright

Start time:9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Talked to the PO about progress made
 - Reviewing the documentation of the github
- What is planned to be done until the next scrum meeting?
 - Continue researching Android OS.
 - Fixing notification story
- What are the hurdles?
 - Having time conflicts

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Formalized and distributed the User Stories to be implemented this Sprint
- What is planned to be done until the next scrum meeting?
 - Finish the Basic Page Structure of under the new dashboard Model.<#1>
- What are the hurdles?
 - A new work breakdown structure has been decided upon with strong recommendation from the PO

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Created new action for User Interface
- What is planned to be done until the next scrum meeting?
 - Testing the action of new buttons in User Page
- What are the hurdles?
 - Not being able to meet at certain times

Brian Mora

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Working on how to interpret the data
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Creating an user interface for the data storage and retrieval
- What are the hurdles?

- Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Set up android studio, watch tutorials about developing android applications.
- What is planned to be done until the next scrum meeting?
 - Work on Mapbox connectivity
- What are the hurdles?

The lack of knowledge of mapbox and how to work with it

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Set up Google Docs, Whatsapp group, and Discord group
- What is planned to be done until the next scrum meeting?
 - We'll discuss the operating system we'll construct the app on, as well as the roles that each student will play in the project.
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - I was able to set up the Android Development Tools to start working on the project app
 - I was able to run the Android Emulator.
- What is planned to be done until the next scrum meeting?
 - Start working on stories #7 and #8
 - Keep more involved with Android Studio
 - Keep researching about Mapbox API
 - Implement the Mapbox API

- What are the hurdles?
 - Still searching for good documentation in reference to the Android Development
 - Searching for good Mapbox API documentation

Zackary Wright:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Planning for current sprint
- What is planned to be done until the next scrum meeting?
 - Working on items #9 and #10 for backend
- What are the hurdles?
 - Getting access to JSON for backend.

Musa Jean:

- How many hours did I work since the last meeting?
 - 1.
- What was done since the last scrum meeting?
 - Working on Clickable images on Android Studio.
 - Created AWS account.
 - Watching Database videos.
 - Read codebase.
- What is planned to be done until the next scrum meeting?
 - Select and create a database.
 - Test with JSON file.
- What are the hurdles?
 - Getting a JSON file.

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz, Musa Jean, Zackary Wright

Start time:9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Worked on getting the notification system to work
- What is planned to be done until the next scrum meeting?
 - Continue researching Android OS.

- Fixing notification story
- What are the hurdles?
 - Keep running into issues with notification crashing the app

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Formalized and distributed the User Stories to be implemented this Sprint
- What is planned to be done until the next scrum meeting?
 - Finish the Basic Page Structure of under the new dashboard Model.<#1>
- What are the hurdles?
 - A new work breakdown structure has been decided upon with strong recommendation from the PO

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Have working fragments for the homepage UI
- What is planned to be done until the next scrum meeting?
 - Creating new fragments for the Profile UI
 - Researching Documentation on fragments layout
- What are the hurdles?
 - Not being able to meet at certain times

Brian Mora

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Working on how to interpret the data
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Creating an user interface for the data storage and retrieval
- What are the hurdles?
 - Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?

- Set up android studio, watch tutorials about developing android applications.
- What is planned to be done until the next scrum meeting?
 - Work on Mapbox connectivity
- What are the hurdles?

The lack of knowledge of mapbox and how to work with it

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Set up Google Docs, Whatsapp group, and Discord group
- What is planned to be done until the next scrum meeting?
 - We'll discuss the operating system we'll construct the app on, as well as the roles that each student will play in the project.
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - I was able to set up the Android Development Tools to start working on the project app
 - I was able to run the Android Emulator.
- What is planned to be done until the next scrum meeting?
 - Keep working on stories #7 and #8
 - Keep researching about Mapbox API
 - Implement the Mapbox API
- What are the hurdles?
 - Searching for good Mapbox API documentation

Zackary Wright:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Watch videos on databases
- What is planned to be done until the next scrum meeting?
 - Continue to work on items #9 and #10 for backend
- What are the hurdles?

- Getting access to JSON for backend.

Musa Jean:

- How many hours did I work since the last meeting?
 - 1.
- What was done since the last scrum meeting?
 - Working on Clickable images on Android Studio.
 - Learning user navigation.
 - Learning Figma.
- What is planned to be done until the next scrum meeting?
 - Create a database.
 - Test with JSON file.
 - Await additional test data.
- What are the hurdles?
 - Getting a JSON file.

Sprint Five

Date:10/25/2021

Sprint: 5

Scrum Daily Standup day #: 1

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz , Musa Jean, Zackary Wright

Start time:9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Talked to the PO about progress made
- What is planned to be done until the next scrum meeting?
 - Fixing notification story
- What are the hurdles?
 - Having time conflicts

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - Formalized and distributed the User Stories to be implemented this Sprint
- What is planned to be done until the next scrum meeting?
 - Finish the Basic Page Structure of under the new dashboard Model.<#1>
- What are the hurdles?
 - A new work breakdown structure has been decided upon with strong recommendation from the PO

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Finishing the last UI pages for the User
- What is planned to be done until the next scrum meeting?
 - Testing the action of the Last fragments in the UI
 - Removing action bar from the UI
- What are the hurdles?
 - Testing the Emulator
 - Debugging the navigational bar
 - Debugging action bar

Brian Mora

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Working on how to interpret the data
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Creating an user interface for the data storage and retrieval
- What are the hurdles?

- Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Set up Google Docs, Whatsapp group, and Discord group
- What is planned to be done until the next scrum meeting?
 - We'll discuss the operating system we'll construct the app on, as well as the roles that each student will play in the project.
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - I was able to start up with the MapBox API implementation
- What is planned to be done until the next scrum meeting?
 - Keep working on stories #7 and #8
 - Keep more involved with Android Studio
 - Keep researching about Mapbox API

- What are the hurdles?
 - Still searching for good documentation in reference to the Android Development
 - Searching for good Mapbox API documentation

Zackary Wright:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Planning for current sprint.
- What is planned to be done until the next scrum meeting?
 - Accessing and testing newly created database.
- What are the hurdles?
 - Getting access to JSON for backend.

Musa Jean:

- How many hours did I work since the last meeting?
 - 1.
- What was done since the last scrum meeting?
 - Working on menus and pickers on Android Studio.
 - Watching Database videos.
 - Read codebase.
- What is planned to be done until the next scrum meeting?
 - Select and create a database.
 - Test with JSON file.
- What are the hurdles?
 - Getting a JSON file.

- What are the hurdles?
 - A new work breakdown structure has been decided upon with strong recommendation from the PO

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 3-4
- What was done since the last scrum meeting?
 - Finishing the last UI pages for the User
 - Debugged and tested Email/Password
 -
- What is planned to be done until the next scrum meeting?
 - Starting to look at mapbox with teammate to add to UI
- What are the hurdles?
 - Testing the Emulator
 - Debugging authentication UI

Brian Mora

- How many hours did I work since the last meeting?
 - 2-3
- What was done since the last scrum meeting?
 - Working on how to interpret the data
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Creating an user interface for the data storage and retrieval
- What are the hurdles?
 - Not clear what kind of data we are going to be working with and where to store it

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Set up android studio, watch tutorials about developing android applications.
- What is planned to be done until the next scrum meeting?
 - Work on Mapbox connectivity
- What are the hurdles?

The lack of knowledge of mapbox and how to work with it

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Set up Google Docs, Whatsapp group, and Discord group
- What is planned to be done until the next scrum meeting?
 - We'll discuss the operating system we'll construct the app on, as well as the roles that each student will play in the project.
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - I was able to start up with the MapBox API implementation
- What is planned to be done until the next scrum meeting?
 - Keep working on stories #7 and #8
 - Keep more involved with Android Studio
 - Keep researching about Mapbox API
- What are the hurdles?
 - Still searching for good documentation in reference to the Android Development
 - Searching for good Mapbox API documentation

Zackary Wright:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Test emulation on Android Studio.
- What is planned to be done until the next scrum meeting?
 - Accessing and testing newly created database.
 - Waiting for necessary JSON file.
- What are the hurdles?
 - Getting access to JSON for backend.

Musa Jean:

- How many hours did I work since the last meeting?
 - 1.
- What was done since the last scrum meeting?
 - Learn more about Android Studio.
- What is planned to be done until the next scrum meeting?
 - Awaiting the JSON file.

- Test with JSON file.
- What are the hurdles?
 - Getting a JSON file.

Sprint: 5

Scrum Daily Standup day #: 5

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz, Musa Jean, Zackary Wright

Start time:8:00 pm

End time: 8:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Worked on Notification of system
 - Fixed crashing issue
- What is planned to be done until the next scrum meeting?
 - Fixing notification story
 - Working on a solution to an issue with notification not loading up
- What are the hurdles?
 - Having issues with the notification loading.

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?c
 - -
- What is planned to be done until the next scrum meeting?
 - Contact Carlos to figure out how I can catchup and contribute to the project in remaining springs
- What are the hurdles?
 - I have been out out touch for a period of time.

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 4
- What was done since the last scrum meeting?
 - Finishing the last UI pages for the User
 - Debugged and tested Email/Password
 - Adding actions to about button
 - Adding widgets to about info
- What is planned to be done until the next scrum meeting?
 - Starting to look at mapbox with teammate to add to UI
 - Finishing fragments for Profile signup/login page
- What are the hurdles?
 - Starting to add Mapbox widgets to geographic fragment

Brian Mora

- How many hours did I work since the last meeting?
 - 2-3
- What was done since the last scrum meeting?
 - Working on how to interpret the data
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Creating an user interface for the data storage and retrieval
- What are the hurdles?
 - Not clear what kind of data we are going to be working with and where to store it

Sprint Six

Date:11/8/2021

Sprint: 6

Scrum Daily Standup day #: 1

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz , Musa Jean, Zackary Wright

Start time:9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Talked to the PO about progress made
- What is planned to be done until the next scrum meeting?
 - Fixing notification story
- What are the hurdles?
 - N/A

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Worked On notifications page
- What is planned to be done until the next scrum meeting?
 - Finish the Basic notifications page and upload it
- What are the hurdles?

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 4
- What was done since the last scrum meeting?
 - Debugging the Mapbox view for fragment
- What is planned to be done until the next scrum meeting?
 - Testing the action of the Last fragments in the UI
 - Removing action bar from the UI
 - Documentation on adding and saving points in database
- What are the hurdles?
 - Testing the Emulator
 - Debugging the navigational bar
 - Debugging action bar

Brian Mora

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Working on how to interpret the data
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Creating an user interface for the data storage and retrieval
- What are the hurdles?
 - Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Set up android studio, watch tutorials about developing android applications.

- What is planned to be done until the next scrum meeting?
 - Work on Mapbox connectivity
- What are the hurdles?

The lack of knowledge of mapbox and how to work with it

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?

- What is planned to be done until the next scrum meeting?
 - We'll discuss the operating system we'll construct the app on, as well as the roles that each student will play in the project.
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - 2
- What was done since the last scrum meeting?
 - I was able to start up with the MapBox API implementation
- What is planned to be done until the next scrum meeting?
 - Keep working on stories #7 and #8
 - Keep more involved with Android Studio
 - Keep researching about Mapbox API
- What are the hurdles?
 - Still searching for good documentation in reference to the Android Development
 - Searching for good Mapbox API documentation

Zackary Wright:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Learning about databases and DBMS.
- What is planned to be done until the next scrum meeting?
 - Accessing and testing newly created database.
- What are the hurdles?
 - Getting access to JSON for backend.

Musa Jean:

- How many hours did I work since the last meeting?
 - 1.
- What was done since the last scrum meeting?
 - Working on menus and pickers on Android Studio.
 - Watching Database videos.
 - Read codebase.
- What is planned to be done until the next scrum meeting?
 - Select and create a database.
 - Test with JSON file.
- What are the hurdles?
 - Getting a JSON file.

Sprint: 6

Scrum Daily Standup day #: 2

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz , Musa Jean, Zackary Wright

Start time:9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Worked on notification
- What is planned to be done until the next scrum meeting?
 - Adding new feature to the notification
- What are the hurdles?
 - N/A

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Worked On notifications page
- What is planned to be done until the next scrum meeting?

- Finish the Basic notifications page and upload it
- What are the hurdles?

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 4
- What was done since the last scrum meeting?
 - Debugging the Mapbox view for fragment
- What is planned to be done until the next scrum meeting?
 - Testing the action of the Last fragments in the UI
 - Removing action bar from the UI
 - Documentation on adding and saving points in database
- What are the hurdles?
 - Testing the Emulator
 - Debugging the navigational bar
 - Debugging action bar

Brian Mora

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Working on how to interpret the data
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Creating an user interface for the data storage and retrieval
- What are the hurdles?
 - Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Set up android studio, watch tutorials about developing android applications.
- What is planned to be done until the next scrum meeting?
 - Work on Mapbox connectivity
- What are the hurdles?

The lack of knowledge of mapbox and how to work with it

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Set up Google Docs, Whatsapp group, and Discord group
- What is planned to be done until the next scrum meeting?
 - We'll discuss the operating system we'll construct the app on, as well as the roles that each student will play in the project.
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?

- What was done since the last scrum meeting?
 - Worked On notifications page
- What is planned to be done until the next scrum meeting?
 - Finish the Basic notifications page and upload it
- What are the hurdles?

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Debugging the Mapbox view for fragment
 - Looking at videos for Mapbox layout
 - Documentation for Mapbox in Android Studios
- What is planned to be done until the next scrum meeting?
 - Testing movement in Mapbox geographical view
 - Adding points in Mapbox
- What are the hurdles?
 - App crashes when user tries to move in map view
 - Debugging movement in Map view display

Brian Mora

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Working on how to interpret the data
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Creating an user interface for the data storage and retrieval
- What are the hurdles?

- Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Set up android studio, watch tutorials about developing android applications.
- What is planned to be done until the next scrum meeting?
 - Work on Mapbox connectivity
- What are the hurdles?

The lack of knowledge of mapbox and how to work with it

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Set up Google Docs, Whatsapp group, and Discord group
- What is planned to be done until the next scrum meeting?
 - We'll discuss the operating system we'll construct the app on, as well as the roles that each student will play in the project.
- What are the hurdles?
 - We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - I was able to start up with the MapBox API implementation.
 - I was able to set up the pinned markers
- What is planned to be done until the next scrum meeting?
 - Keep working on stories #7 and #8
 - Start working on User Location

- What are the hurdles?
 - Still searching for good documentation in reference to the Android Development
 - Searching for good Mapbox API documentation

Zackary Wright:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Learning about databases and DBMS.
- What is planned to be done until the next scrum meeting?
 - Testing created database.
 - Learning about Google Firestore
- What are the hurdles?
 - Getting access to JSON for backend.

Musa Jean:

- How many hours did I work since the last meeting?
 - 1.
- What was done since the last scrum meeting?
 - Watching Database videos.
 - Learning Firebase for database.
 - Learning to use API.
- What is planned to be done until the next scrum meeting?
 - Select and create a database.
 - Test with JSON file.
- What are the hurdles?
 - Getting a JSON file.

Sprint: 7

Scrum Daily Standup day #: 7

Daily Scrum Meeting Minutes: 45

Attendees:

Capstone 2:

Senior Project: Carlos Martinez-Cortes

Capstone 1: Alexander Jimenez, Tomas Alvarez Lopez, Bernardo D Cruz, Brian Mora, Eddy Garcia, Alejandro Ruiz, Musa Jean, Zackary Wright

Start time:9:00 pm

End time: 9:45 pm

Tomas Alvarez Lopez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - worked on Notification story
- What is planned to be done until the next scrum meeting?
 - Fixing notification story
- What are the hurdles?
 - N/A

Alexander Jimenez:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Looked at deliverables to be presented
- What is planned to be done until the next scrum meeting?
 - Set Up deliverables for the project
- What are the hurdles?

Carlos Martinez-Cortes:

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Creating poster/video/handling documents and folders

- Redoing poster set up
- What is planned to be done until the next scrum meeting?
 - Meeting with group to do final steps in app
 - Final meetings to do videos
 - Reviewing Announcements for Power points
- What are the hurdles?
 - Times are not aligning due to final exams on last week

Brian Mora

- How many hours did I work since the last meeting?
 - 3
- What was done since the last scrum meeting?
 - Working on how to interpret the data
 - Worked on data storage
- What is planned to be done until the next scrum meeting?
 - Creating an user interface for the data storage and retrieval
- What are the hurdles?
 - Some of the hurdles that we are experiencing is on the coordination of the time and the availability of the different team members and the decision on the os to use.

Eddy Garcia:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Set up android studio, watch tutorials about developing android applications.
- What is planned to be done until the next scrum meeting?
 - Work on Mapbox connectivity
- What are the hurdles?

The lack of knowledge of mapbox and how to work with it

Bernardo D Cruz:

- How many hours did I work since the last meeting?
 - N/A
- What was done since the last scrum meeting?
 - Set up Google Docs, Whatsapp group, and Discord group
- What is planned to be done until the next scrum meeting?
 - We'll discuss the operating system we'll construct the app on, as well as the roles that each student will play in the project.
- What are the hurdles?

- We are still figuring out the best time for all members of the group to be available.

Alejandro Ruiz:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - I was able to start up with the MapBox API implementation
 - I was able to set up the mapbox and this one shows up in the emulator
- What is planned to be done until the next scrum meeting?
 - Keep working on stories #7 and #8
 - Researching about the user location in mapbox
- What are the hurdles?
 - Still searching for good documentation in reference to the Android Development
 - Searching for good Mapbox API documentation

Zackary Wright:

- How many hours did I work since the last meeting?
 - 1
- What was done since the last scrum meeting?
 - Learning about databases and DBMS.
- What is planned to be done until the next scrum meeting?
 - Watching videos on database management.
- What are the hurdles?
 - Gaining access to backend JSON file.

Musa Jean:

- How many hours did I work since the last meeting?
 - 1.
- What was done since the last scrum meeting?
 - Creating a login with Firebase
- What is planned to be done until the next scrum meeting?
 - Video
- What are the hurdles?
 - Getting a JSON file.
