BIM Virtual Assistant V3.5

Luis Bauza

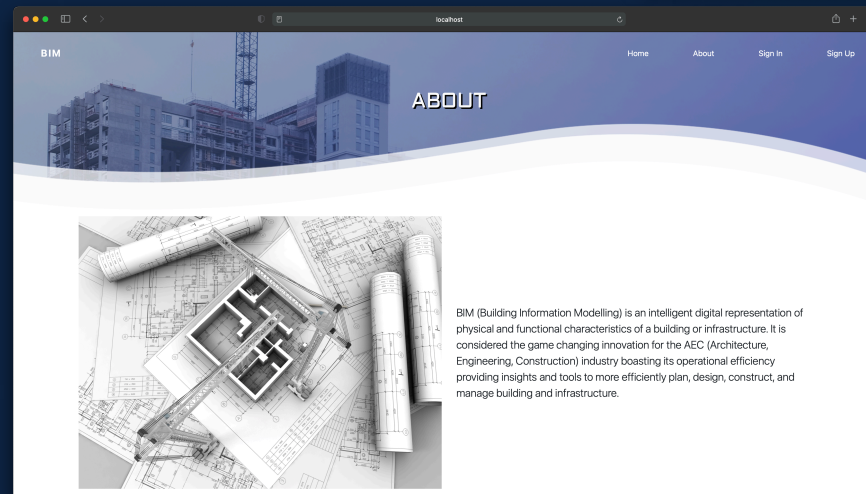

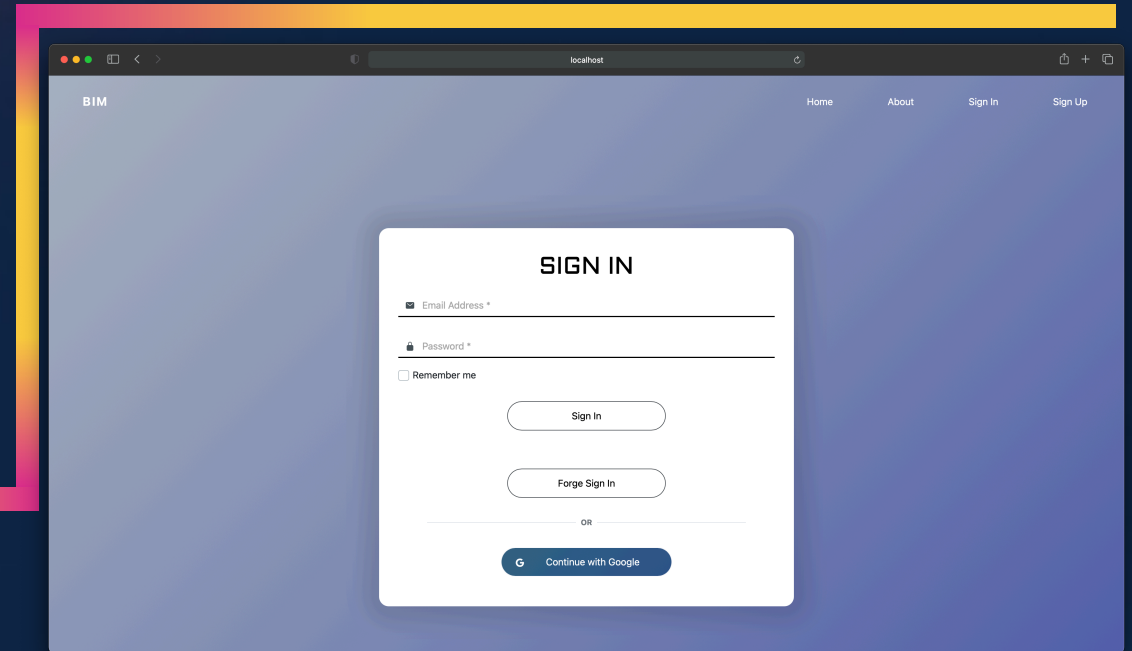

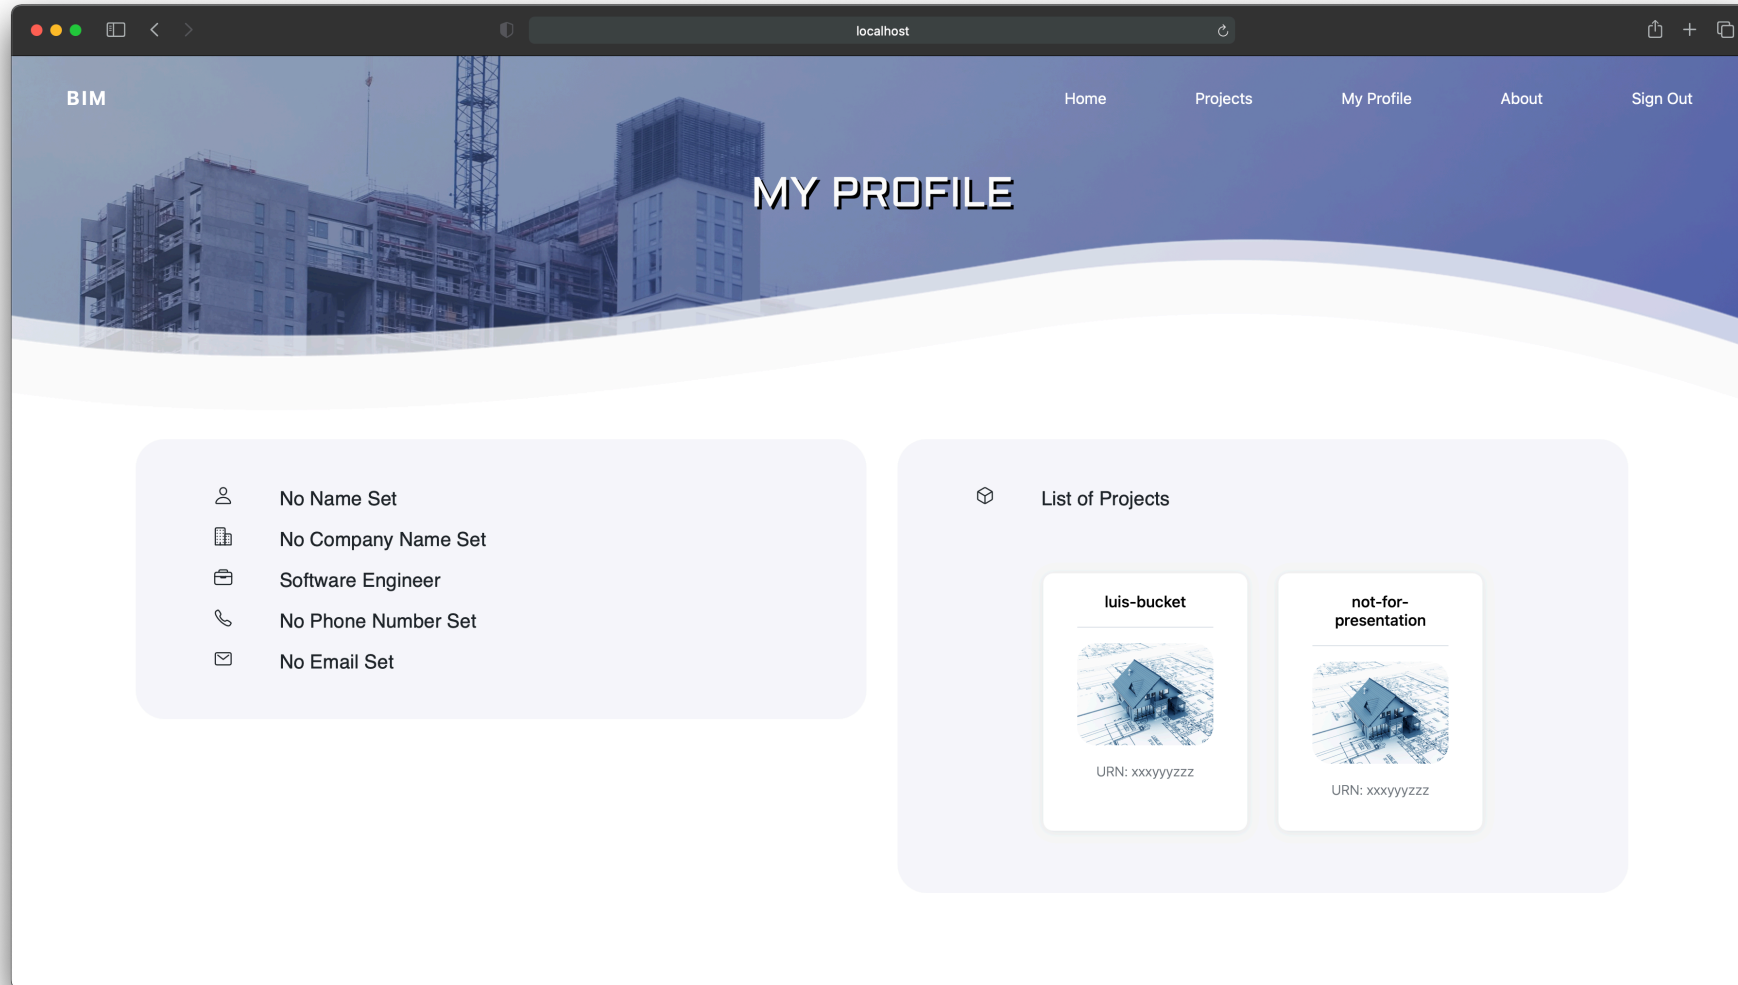

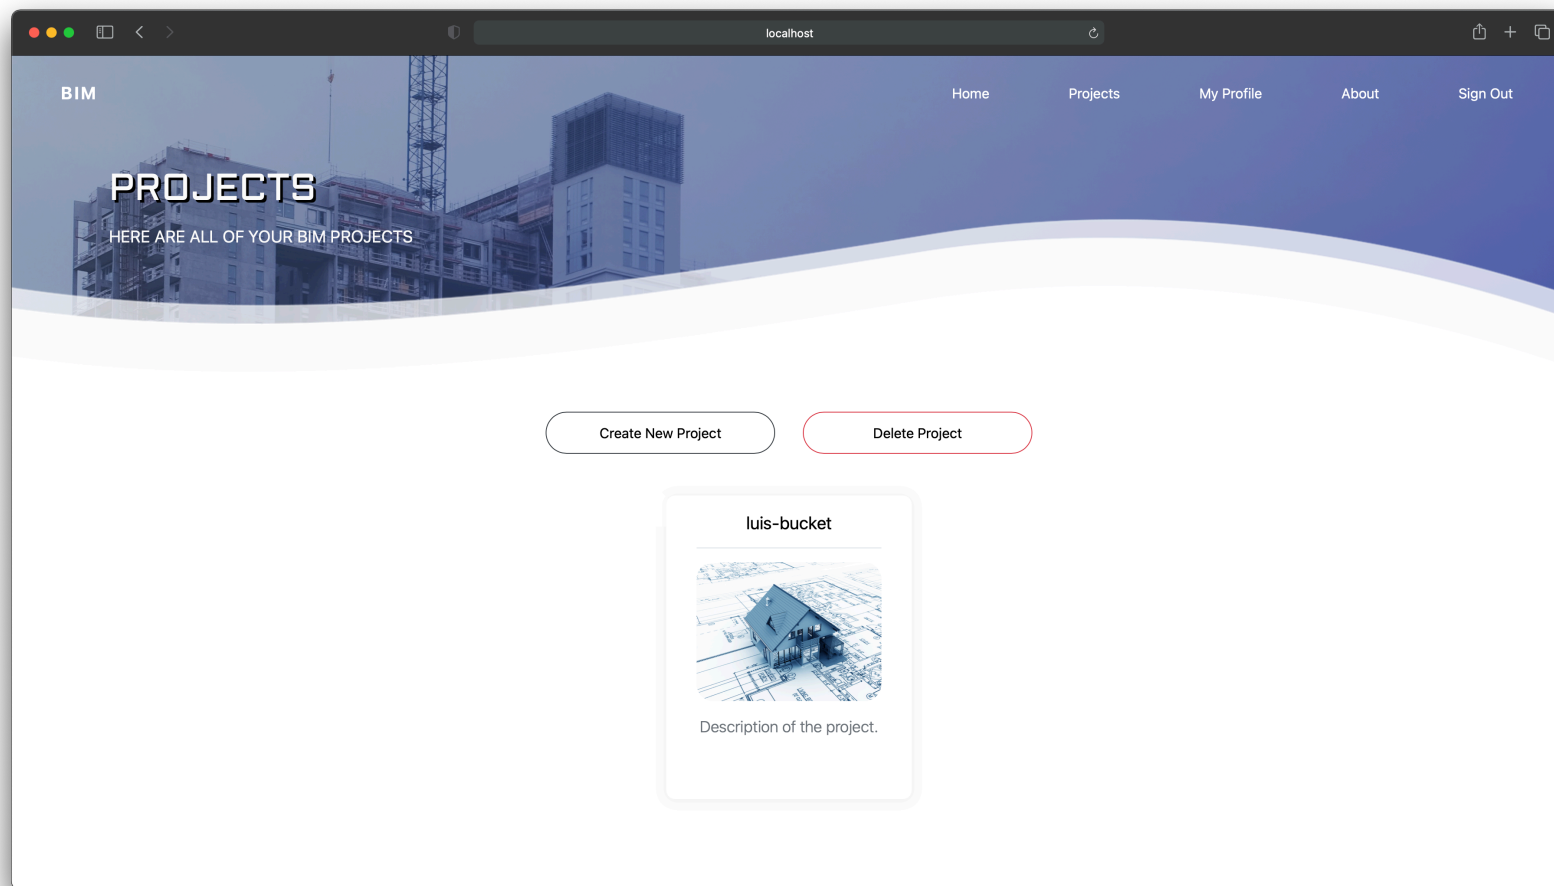

Explore 3D models with the help
of the BIM Virtual Assistant.

It starts with signing in.

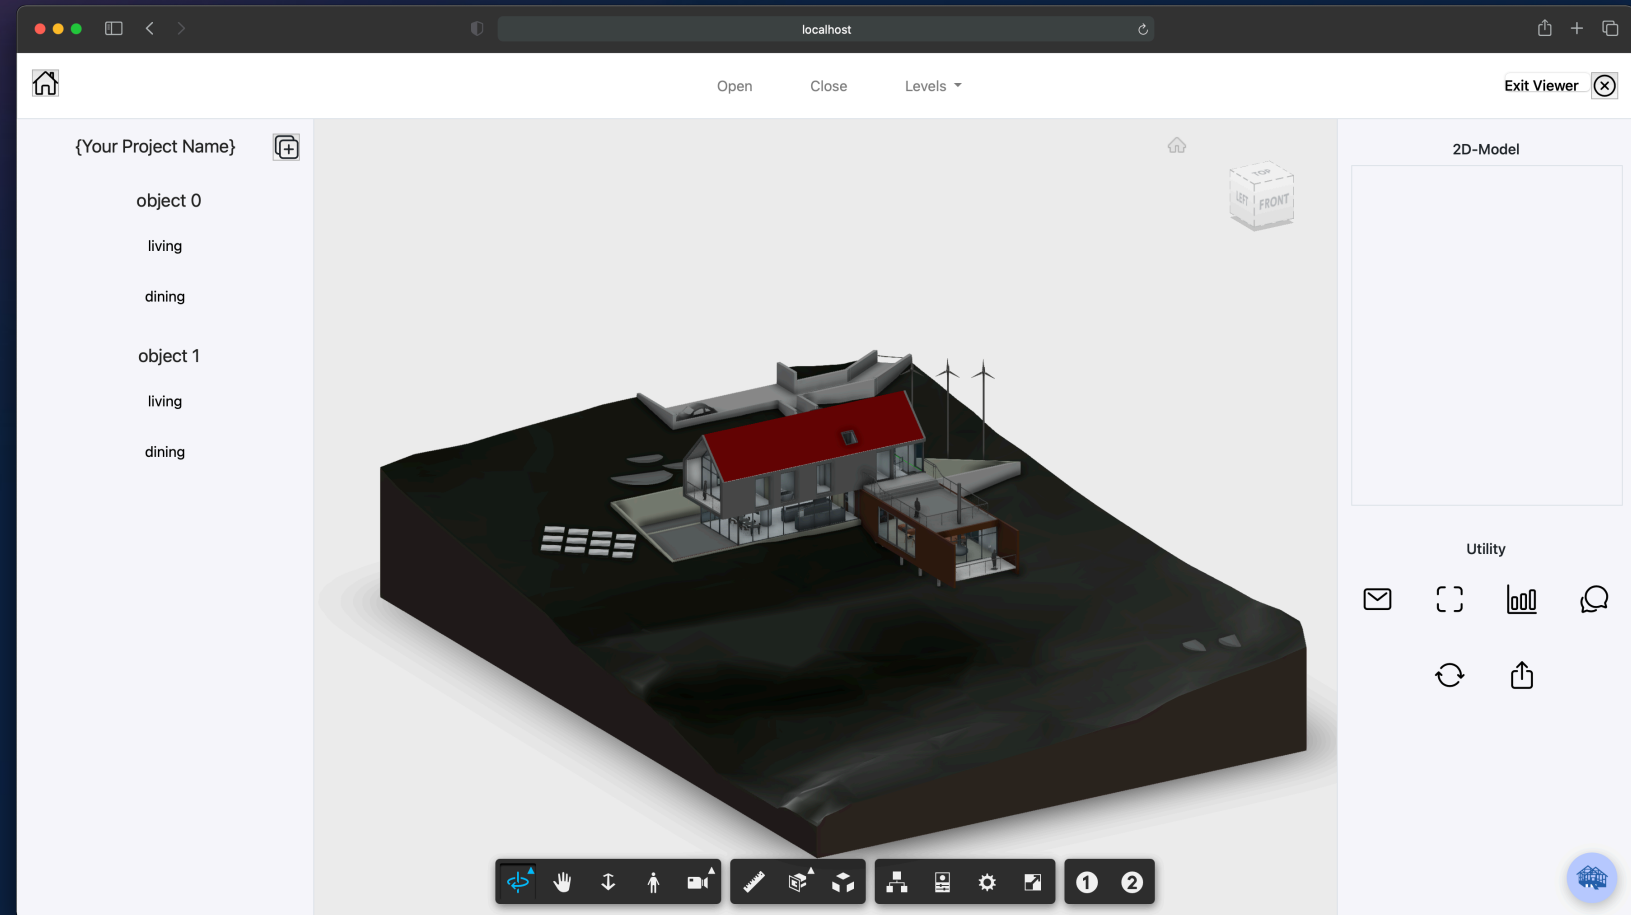

- Creating a BIM account is free.
- Accounts are stored securely in Firebase.
- Google & Forge sign-in options are available.

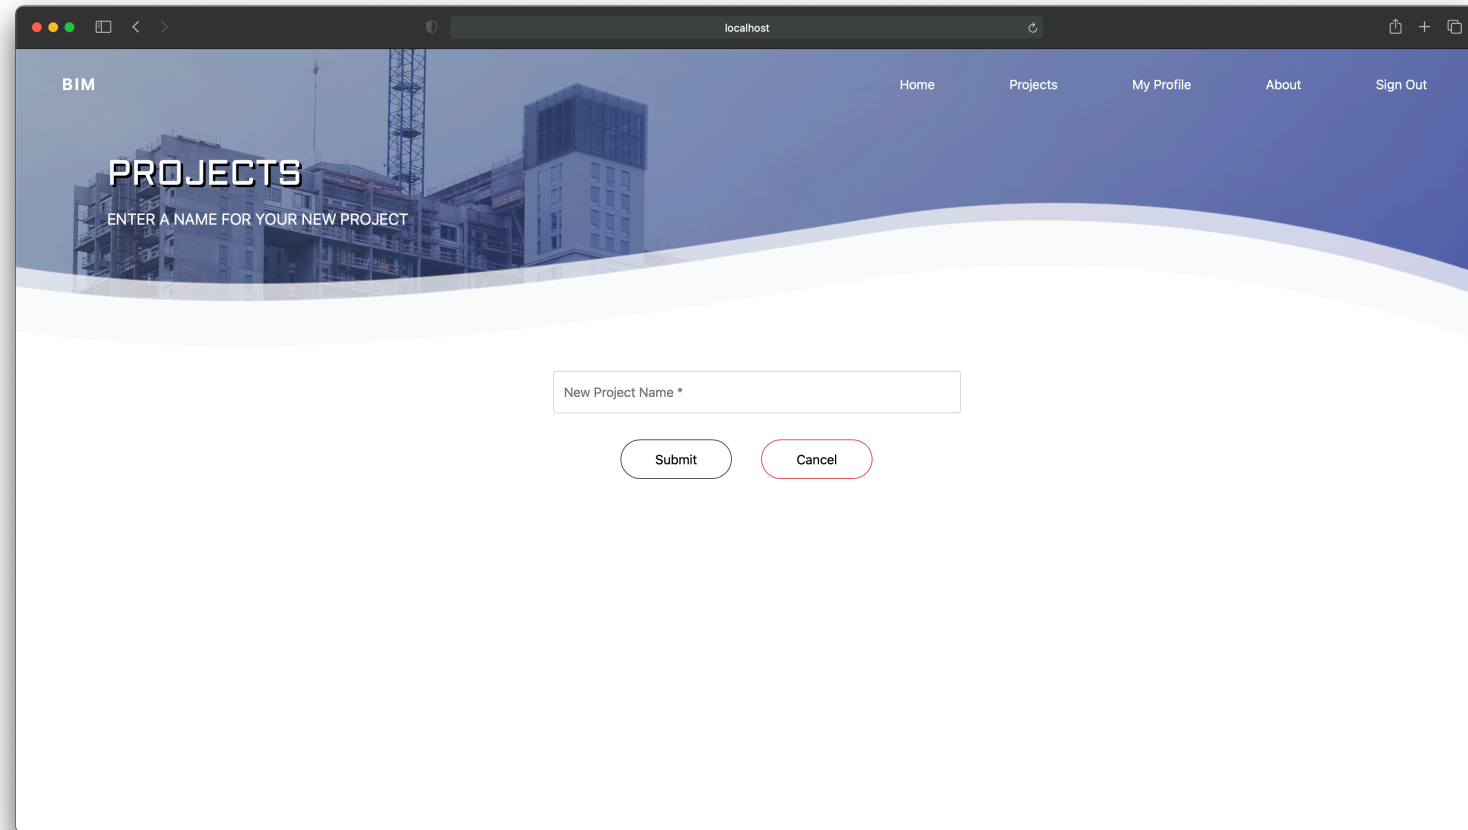

- Viewing 3D models is simple.
- Simply upload a model to Forge and we take care of the rest.
- Interact with the assistant by using the button.

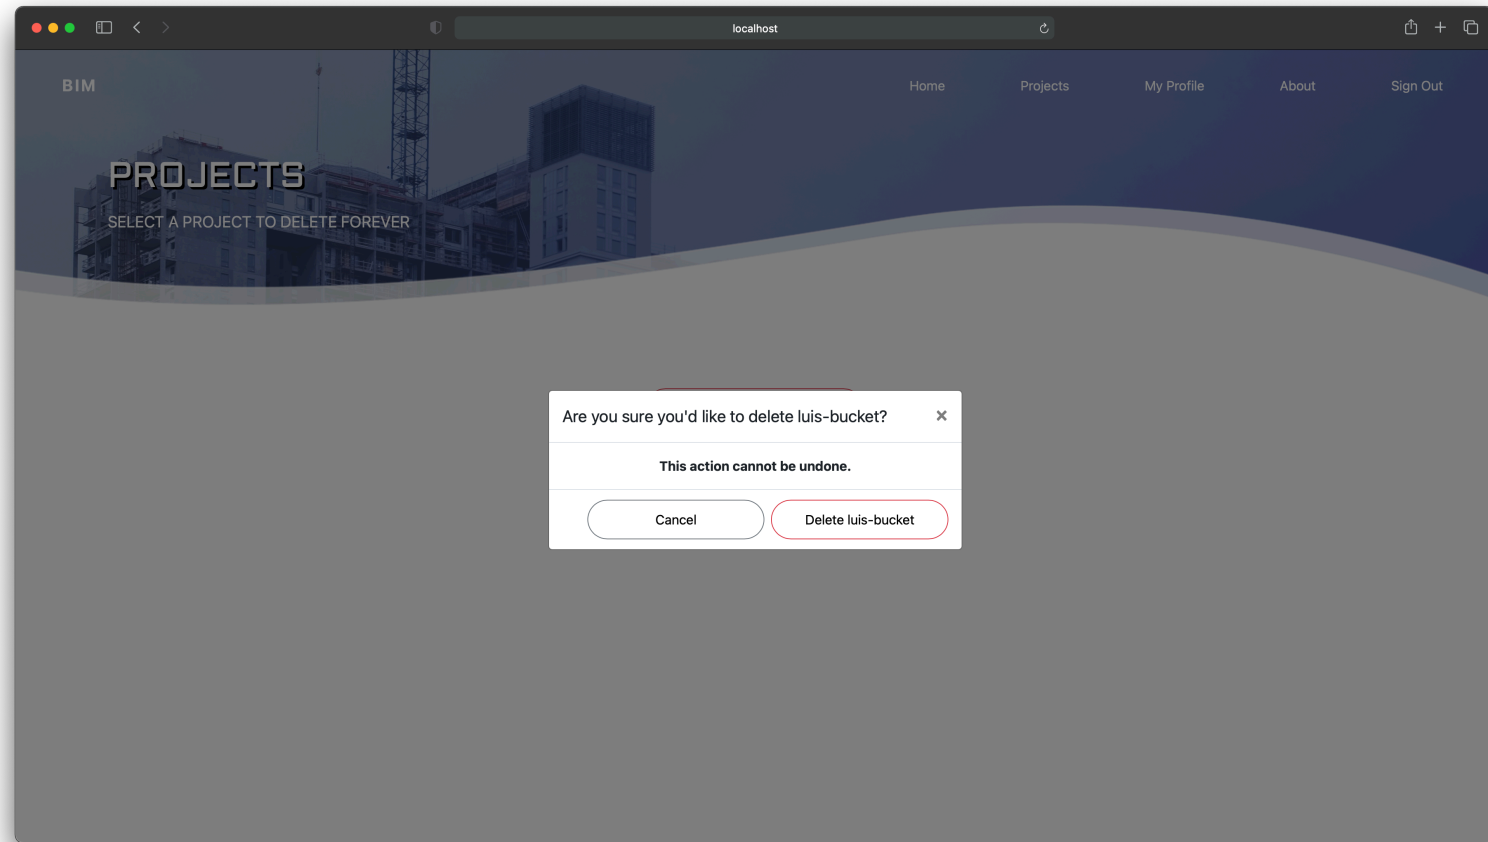

Project Creation is Easy.

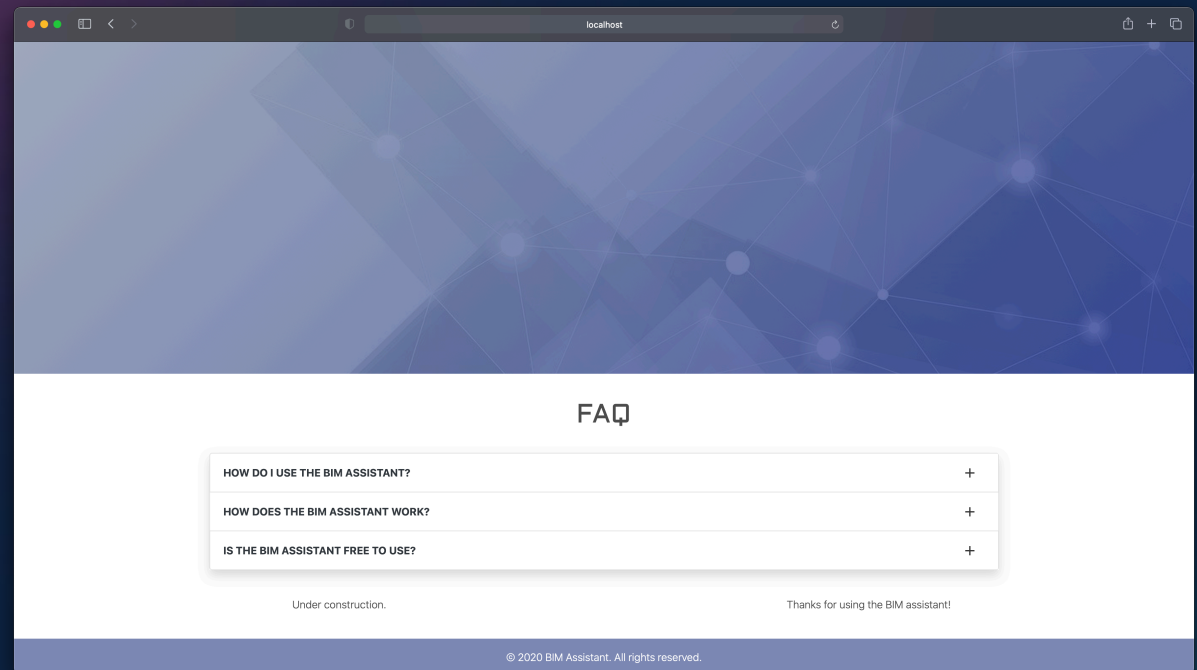

The screenshot shows a web browser window at localhost displaying a web application. The application has a header with the text "BIM" on the left and navigation links "Home", "Projects", "My Profile", "About", and "Sign Out" on the right. The main content area features a large banner image of a building under construction with the text "PROJECTS" and "ENTER A NAME FOR YOUR NEW PROJECT" overlaid. Below the banner, there is a form with a text input field labeled "New Project Name *". At the bottom of the form are two buttons: "Submit" and "Cancel".

Quickly Delete Projects

Streamlined FAQ

- The FAQ is at the bottom of our main page.
- More questions and answers are planned to be incorporated.
- A full tutorial of the assistant is also planned to be added to this section.

- The BIM Virtual Assistant makes working with 3D models easier.
- By leveraging the power of AI, users can quickly modify or explore their models.
- Some functionality includes:
 - Expanding your model by floor
 - Listing all materials used for construction
 - And many more!
