

## **Sprint Planning Meeting Minutes:**

**Attendees:** James Davidovich, Giancarlo Perez, Ricardo Estrella, Moiz Khatri, Max Garcia

**Start Time:** 9:00 PM

**End Time:** 9:30 PM

After discussion, the velocity of the team was estimated to be 50 hrs.

The product owner chose the following user stories to be done during the next sprint. They are ordered based on their priority.

- User Story 6 Customize Force Setting Application, As a user I want to be able to change the bench mark for the force that will be accepted by the application as a “good” punch.
- User Story 7 Custome Speed Setting Application, As a user I want to be able to change the bench mark for the speed between punches that will be accepted by the application as “quick” enough.
- User story 8 Customize Time Setting Application, As a user I want to be able to change the amount of time I am given to throw my punches before the session ends.
- User story 9 Start, Stop, Reset funtionality, As a developer I want to implement some way for users to start, stop, and reset their session manually.
- User Story 10 Benchmark creation, As a user I want to be able to set personal goals when using each individual application.
- User story 5 Theme implementation, As a developer I want to implement different UI themes so that users can select which UI appearance best interests them.
- User story 2 Formula Creation, As a developer I want to create a formula that helps objectively judge users’ performance.

The team members indicated their willingness to work on the following user stories.

- James Davidovich
  - User story 6, Customize Force setting Application
