

Sprint Review Meeting Minutes

Attendees: James Davidovich, Giancarlo Perez, Moiz Khatri, Ricardo Estrella, Max Garcia Del Pozo

Start time: 9:30 PM

End time: 10:00 PM

After a show and tell presentation, the implementation of the following user stories were accepted by the product owners: All.

- User story 3, As a developer I want to fix the database so that users can get past the login screen for the program.

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Spring Planning meeting.

- User story 1, Formula Research
 - As a developer I want to understand how other products have created formulas based on users' strength/speed.
 - More thoughts about how user scores should be calculated are still being investigated (linear equation vs exponential/piecewise).
- User story 2, Formula Creation
 - As a developer, I want to create a formula that helps objectively judge users' performance.
 - Formulas have been created but more formula ideas are requested by the product owner.
- User story 4, Theme Research
 - As a developer, I want to understand how other products have used color combinations that help maintain user engagement.
 - The team is still researching different palettes for the UX.
- User story 5, Theme Implementation
 - As a developer, I want to implement different UI themes so that users can select which UI appearance best interests them.
 - Since the team is still researching different palettes for the UX this has not been implemented yet.
